1. Relevant background information

Background information in relation to PLAC II project:

The scope of PLAC II project is to provide support to relevant national institutions in charge of alignment of national legal acts with the EU acquis and to contribute to further building of capacities of relevant national structures for successful carrying out of accession negotiations.

The PLAC II project should achieve two results:

RESULT 1 - Enhanced compatibility of national legislation with EU legislation and its effective implementation,

RESULT 2 - Enhanced capacities of the relevant national structures for successful carrying out of accession negotiations.

In general, the project aims at fostering the process of accession negotiations of Serbia by supporting the effective alignment of national legislation with the acquis and its implementation and by further building the capacities of involved carriers of the EU integration process in Serbia. After completion of screening process in 2015, Serbian public administration has entered into much more demanding and obliging exercise of accession negotiations, whereby each step and every decision should result in approaching actual membership in the EU. For this scenario to happen in accordance with planned dynamics, preparedness, adequate institutional capacity of public administration with highly competent staff is of crucial importance. In the core period of the negotiations, PLAC II Project shall support domestic line institutions and the negotiating structures both in performance of quality operational work in relation to harmonisation process and in the effective coordination during various stages and phases in the process for different negotiation chapters.

Background information in relation to Chapter 9 – Financial Services:

As per EC Screening Report for **Chapter 9 – Financial Services** Serbia has already reached a satisfactory level of alignment and partly applies the acquis in the fields covered by this chapter. Serbia is considered to be sufficiently prepared at this stage for the opening of accession negotiations on this chapter. Therefore, the Commission recommended the opening of accession negotiations with Serbia on the Chapter 9 – Financial Services.

in consortium with: u konzorcijumu sa:

Chapter 9 – Financial services includes four principal sections: banks and financial conglomerates, insurance and occupational pensions, financial market infrastructure and securities markets and investment services.

Serbia has reached a satisfactory level of alignment with the acquis in the area of banks and financial conglomerates. However, domestic legislation is not aligned with Directive 2002/87/EC of the European Parliament and of the Council on the supplementary supervision of credit institutions, insurance undertakings and investment firms in a financial conglomerate, amending Council Directives 73/239/EEC, 79/267/EEC, 92/49/EEC, 92/96/EEC, 93/6/EEC and 93/22/EEC, and Directives 98/78/EC and 2000/12/EC of the European Parliament and of the Council, (including the last amendment of Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013).

Introduction of supplementary supervision of financial conglomerates includes certain amendments of sectoral rules for individual supervision of credit institutions, insurance undertakings and investment firms, particularly in order to avoid regulatory arbitration between sectoral rules and rules for financial conglomerates. Institutions responsible for the supervision of regulated entities that could form part of a financial conglomerate are the National bank of Serbia for the banks and insurance companies and the Securities Commission for the investment firms. However, there is no an appropriate institutional framework in the Republic of Serbia for implementation of the EU acquis for the supplementary supervision of financial conglomerates.

Therefore, Serbia needs to transpose Directive 2002/87/EC and establish comprehensive legal and institutional framework for the supplementary supervision of financial conglomerates. In line with Serbia's EU accession process and the National Programme for the Adoption of the Acquis (NPAA), currently under its third revision, (reference number 3.9.1.), the adoption of the new Law on Financial Conglomerates has been planned for second quarter of 2021.

Having in mind that full harmonisation of the domestic legal framework with Directive 2002/87/EC will be achieved by adoption of the Law on Financial Conglomerates, the National Bank of Serbia is conducting a comprehensive analysis of that Directive, in order to perceive the most adequate way for its transposition, which would then be followed by nominating a working group in charge for developing the law, with a view to the fact that certain provisions of the Law will be postponed until the date of accession of the Republic of Serbia to the European Union at the latest. In order to establish appropriate legal and institutional framework and ensure correct application of the acquis, there is a need for assistance of experienced experts that would complement national efforts for proper transposition and implementation of the EU acquis in the field of supplementary supervision of financial conglomerates.
