

CONTRACTING AUTHORITY'S CLARIFICATIONS No. 5

“Serbia Floods Rehabilitation Support”- Emergency works project
“Flood Protection System – Macva”

Publication reference: EuropeAid/137976/DH/WKS/RS

No.	Question	Answer
1.	Please explain the requirement for Technical Capacity of the Tenderer related to contract value of 3.300.000 EUR at least for the works of similar nature and complexity for the last five years, is it the total value of 3 contracts or value per single contract?	<p>Your question refers to the section 12.2.1 of the Instruction to tenderers, for the case that a tenderer applies to both Lots i.e. Lot 1 and Lot 2. As clearly said in the paragraph, "<i>The tenderer must have completed at least three (3) contracts (with a portion of the contract being at least 3.300.000 EUR) for the works of similar nature and complexity and experience in the works on sand refilling in at least 200 000 m3, which were implemented in the course of the past 5 years (starting from 01.01.2012 up to the deadline for submission of tenders)</i>".</p> <p>The meaning is that each of the three (3) completed contracts must have a portion of <i>at least 3.300.000 EUR</i>.</p>
2.	Whether a member of JV can engage sub-contractor, and if yes, which conditions must be fulfilled by the sub-contractor?	<p>A member of JV can engage a subcontractor. The conditions for engagement of a subcontractor providing more than 10% of the works as well as for any other subcontractor or supplier are defined in the section 25 of the Instruction to tenderers.</p> <p>The proposed subcontractors in the tender offer are evaluated along with the Bidder i.e. Tenderer. The proposed subcontractors, upon the contract signature, are subject to the identical conditions and to the evaluation by the Contracting Authority.</p>
