

CONTRACTING AUTHORITY'S CLARIFICATIONS No. 1

"Mobile Flood Defense Equipment"

Publication reference: EuropeAid/137461/DH/SUP/RS

| No. | Question | Answer |
|-----|---|---|
| 1 | ..after reading the new announcement, especially the new annex, I'm not sure if we can still offer our flood protection system made of plastic (as it was required in the old version). Do we have to change to an aluminium-based system now or is a composite plastic system still permissible? | Please refer to the Technical Specifications published under 137461, where the material specifications have been clearly defined: "A 3.4. Made of Aluminium" |
| 2 | Would it be possible to send the file „B04 ANNEX II + III TS (drawings published separately)“ in the editable form (just the tables at the end, as it would be easier to fill them in). | Our publishing regulations do not foresee any different format than pdf |
