CONDITIONS OF PARTICIPATION

11. Eligibility

Participation is open to all natural persons who are nationals of and legal persons (participating either individually or in a grouping – consortium - of tenderers) which are effectively established in a Member State of the European Union or in an eligible country or territory as defined under the Regulation (EU) N°236/2014 establishing common rules and procedures for the implementation of the Union's instruments for external action (CIR) for the applicable Instrument under which the contract is financed (see also heading 29 below).

Participation is also open to international organisations. Please be aware that after the United Kingdom's withdrawal from the EU, the rules of access to EU procurement procedures of economic operators established in third countries will apply to candidates or tenderers from the United Kingdom depending on the outcome of negotiations. In case such access is not provided by legal provisions in force at the time of contract award, candidates or tenderers from the United Kingdom could be rejected from the procurement procedure.

12. Candidature

All eligible natural and legal persons (as per item 11 above) or groupings of such persons (consortia) may apply.

A consortium may be a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure. All members of a consortium (i.e., the leader and all other members) are jointly and severally liable to the Contracting Authority.

The participation of an ineligible natural or legal person (as per item 11) will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

13. Number of applications

No more than one application can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or member of a consortium submitting an application). In the event that a natural or legal person submits more than one application, all applications in which that person has participated will be excluded.

14. Shortlist alliances prohibited

Any tenders received from tenderers comprising firms other than those mentioned in the short-listed application forms will be excluded from this restricted tender procedure unless prior approval from the Contracting Authority has been obtained (see Practical Guide – PRAG - 2.4.3.). Short-listed candidates may not form alliances or subcontract to each other for the contract in question.

15. Grounds for exclusion

As part of the application form, candidates must submit a signed declaration, included in the standard application form, to the effect that they are not in any of the exclusion situations listed in Section 2.3.3 of the PRAG.

16. Sub-contracting

Subcontracting is allowed up to maximum 30% of the contract value.

17. Number of candidates to be short-listed

On the basis of the applications received, between 4 and 8 candidates will be invited to submit detailed tenders for this contract. If the number of eligible candidates meeting the selection criteria is less than the minimum of 4, the Contracting Authority may invite the candidates who satisfy the criteria to submit a tender.

June 2018

19. Provisional commencement date of the contract

September 2018

20. Initial period of implementation of tasks

SELECTION AND AWARD CRITERIA

21. Selection criteria

The following selection criteria will be applied to candidates. In the case of applications submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

- 1) **Economic and financial capacity of candidate** (based on item 3 of the application form). In case of candidate being a public body, equivalent information should be provided. The

reference period which will be taken into account **will be the last three years for which accounts have been closed.**

- a) The average annual turnover of the candidate must exceed EUR 1,000,000.
- b) Current ratio (current assets/current liabilities) in the last year for which accounts have been closed must be at least 1. In case of a consortium this criterion must be fulfilled by each member.

2) Professional capacity of candidate (based on items 4 and 5 of the application form). The reference period which will be taken into account **will be the last three years from submission deadline.**

- a) At least 8 permanent staff currently work for the candidate in fields related to this contract (implementation of Natura 2000 network, designation of potential sites, habitat mapping and species inventories, management of protected areas, legislation harmonization and communication/visibility).

3) Technical capacity of candidate (based on items 5 and 6 of the application form). The reference period which will be taken into account **will be the last five years from submission deadline.**

- a) The candidate has provided services under at least two projects (the candidate's portion equal to or greater than 500,000 EUR for his services in each project) in the field of implementation of Chapter 27 in the area of nature protection (NATURA 2000).

For the purposes of this short-listing procedure, projects/project components are considered compliant with point 21.3(a) above only if they have been carried out by the candidate itself (in case the candidate is a consortium, by one of its members) and not e.g. by other members of a previously formed consortium who are not part of this Application.

The project the candidate refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Candidates are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, proof of final payment). In case of projects still on-going only the portion (e.g. relevant project stage or component) satisfactorily completed during the reference period although started earlier will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value. If a candidate has implemented the project in a consortium, the percentage that the candidate has successfully completed must be clearly stated in the documentary evidence, together with a description of the nature of the services provided if the selection criteria relating to the pertinence of the experience have been used.

Previous experience which caused breach of contract and termination by a Contracting Authority shall not be used as reference.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility - notably that of nationality - and must fulfil the same relevant selection

criteria as the economic operator. With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the works or services for which these capacities are required. With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

If more than 8 eligible candidates meet the above selection criteria, the relative strengths and weaknesses of the applications of these candidates must be reexamined to identify the eight best candidates. The only factors which will be taken into consideration during this re-examination are:

1) the total number of the reference projects found eligible under 21.3(a).

In case of equal results between two or more candidates (i.e. equal number of projects/project components as per additional criterion 1 above), and if necessary for identifying the eight best applications, a second criterion will be applied, as follows:

2) the cumulative value of the eligible part (the proportion carried out by the candidate of projects found eligible under 21.3.(a).

22. Award criteria

Best price-quality ratio.
