

## **CORRIGENDUM No 1**

**Cross-border Programme Serbia – Montenegro  
under the Instrument for Pre-accession Assistance (IPA),  
Component II, allocations for 2009, 2010, 2011 and leftover from 2008**

**Publication ref.: EuropeAid/131676/L/ACT/IPA**

The Corrigendum No 1 concerns only the update of the Grant Application Form (Annex A of the Guidelines for Grant Applicants) from Version 1 to Version 2.

An error had been discovered where if budgeted expenses for adjacent area are greater than 20% in the budget, the Grant Application Form (GAF) reports an error and prevents applicants from finalizing it. As this should not be the case (i.e. in justified cases even 100% of expenses can be allocated to adjacent area).

Two options are possible:

1. In cases where the Beneficiaries have already started introducing data in the GAF Version 1, they can simply update it to the Version 2 with the Update Tool attached to this Corrigendum, without loss of the existing data. Instructions on how to use the Update Tool are also attached to the Corrigendum; or
2. In cases where the Beneficiaries have not already started introducing data in the GAF Version 1, they can simply use the GAF Version 2 attached to the Corrigendum No 1.

*All other terms and conditions of the Application Package remain unchanged.*
