CONTRACTING AUTHORITY'S CLARIFICATIONS No. 1

**Technical Assistance for the establishment of the Regional Heritage Centre in
Senjski rudnik old mine**

Publication ref.: EuropeAid/131725/C/SER/RS

No	Question	Answer
1.	<p>We would like to request clarification on the point 7. Contract description: It is stated that the purpose of the contract is "to regenerate the historic town of Senjski Rudnik by rehabilitating an old industrial centre and a coal mine and converting them into a regional industrial heritage centre, contributing in this way to sustainable tourism and development". It is not clear for us which kind of services are you thinking about, if it is the design and planning of this rehabilitation, or if you are expecting a company to provide execution services (working site inspection, building, etc.) of an already existing plan/design for this rehabilitation.</p>	<p>The activities aim at providing technical assistance to the local community for the sustainable development of the overall area. The activities include preparation of an action plan, professional guidance and training linked to the capacity building, management and administration of the newly established Regional Heritage Centre as well as promotion of Senjski rudnik as a new heritage attraction.</p>
2.	<p>21 point 3) Regarding the technical capacity of the candidate. It is requested to have 2 projects in the past 3 years with a candidate's proportion of not less than 250.000€ for services in the field of "cultural heritage, industrial and economic requalification at the local level and/or tourism". We don't know how to understand correctly the last "and/or tourism" expressions. For example: can a tourism marketing plan or a tourism development plan (both with no special emphasis in cultural heritage, industrial or economic requalification) be accountable to fill the 2 required projects just because it is in the field of tourism?</p>	<p>As stated in point 21. 3) in the Procurement notice eligible projects should cover one of the fields specified, i.e. cultural heritage, industrial and economic requalification at the local level and/or tourism</p>
