1. EU CIVIL SOCIETY FACILITY SERBIA PROGRAMME

1.1. BACKGROUND

Civil society plays an important role in ensuring principles of human dignity, freedom, equality, the rule of law and respect for human rights, including the right of persons belonging to minorities to be upheld in practice. By articulating citizen's concerns, civil society organisations (CSOs) are understood as all non-state, not-for-profit structures in which people organise to pursue shared objectives and ideals, who are active in public arena and engage in initiatives which foster pluralism and further participatory democracy¹.

Civil society actors in enlargement countries can make substantial contributions by addressing issues such as the rule of law, corruption, organised crime, regional cooperation, the economy and social cohesion. Through their lobbying, advocacy and oversight activities at national, regional and local level they can create demand for enhanced transparency, accountability and effectiveness from public institutions and create a greater focus on the needs of citizens in policy-making. Furthermore, the involvement of civil society in the pre-accession process can contribute to deepening citizens' understanding of the reforms a country needs to complete in order to qualify for EU membership².

According to the Serbia 2013 Progress Report, civil society sector continued to grow and play an important role in social, economic and political life, and in promoting democratic values³. It is also emphasised that Serbia will have to sustain the momentum of reforms over time in the key areas of the rule of law, particularly judicial reform and anti-corruption policy, independence of key institutions, media freedom, anti-discrimination policy, the protection of minorities and the business environment. Further attention needs to be given to actively protecting the media, human right defenders and other vulnerable groups, including the Roma and LGBTI persons. Continued visible and sustainable progress in the normalisation of relations with Kosovo*, including the implementation of agreements reached so far, will remain essential.

The July 2013 Opinion underlines the importance of civil society involvement in the process of aligning Serbian legislation with the EU *acquis*⁴. It calls upon the Government of Serbia and the EU institutions to step up their support to civil society organisations (CSOs) and to involve them closely in the upcoming steps leading to EU accession. Hence, it also warns that Serbian civil society is predominantly based in cities and is unevenly represented across the regions. Further support is needed to encourage associative movements, build capacities and support the networking of CSOs based in rural areas and/or small towns.

According to the priorities for IPA support to the Republic of Serbia over the period covered by Multi-Annual Indicative Planning Document (MIPD) 2011 – 2013 the following target areas have been identified: strengthening the rule of law and public administration, support for the overcoming of the economic crisis and improving competitiveness and social inclusion and reconciliation. Support to civil society is identified as a cross-cutting intervention in all targeted support. This document also emphasizes the importance of development of civil society including: „*Improved environment for civil society, with more effective dialogue between civil society and the government and more effective civic participation in policy processes.*”

* This designation is without prejudice to positions on status, and is in line with UNSC 1244 and the ICJ Opinion on the Kosovo Declaration of Independence

The "Civil Society Facility" (CSF) is one of the European Commission's instruments for supporting the development of the civil society in the enlargement countries. It was set up in 2008 and since then has been providing the pre-accession assistance to the civil society in the Western Balkans and Turkey, through National and Multi-beneficiary initiatives. The overall objective of the CSF programme is "To contribute to anchoring democratic values and structures, human rights, social inclusion and the rule of law, thereby supporting the EU integration process."

This Call for Proposals is financed through the Civil Society Facility 2013 National Programme initiative. It aims to increase the effectiveness of the Serbian CSOs in undertaking initiatives focused on fight against corruption, greater transparency, openness and accountability of public administration. Also, the Call will strengthen support provided by Serbian CSOs to people and groups that are more exposed to discrimination and discriminatory practices such as asylum seekers, readmitted people, LGBTI persons and children. In order to strengthen cooperation between Serbia and Kosovo, the Call will support cultural initiatives promoting intercultural dialogue, foster cooperation between local communities and professional groups to stimulate initiatives of common socio-economic interests.

2. RULES FOR THIS CALL FOR PROPOSALS

These guidelines set out the rules for the submission, selection and implementation of the actions financed under this Call, in conformity with the Practical Guide to contract procedures for EU external actions, which is applicable to the present call (available on the Internet at this address: http://ec.europa.eu/europeaid/work/procedures/implementation/index_en.htm).

2.1. ELIGIBILITY CRITERIA

There are three sets of eligibility criteria, relating to:

(1) the actors:

- The **applicant**, i.e. the entity submitting the application form (2.1.1),
- if any, its **co-applicant(s)** (where it is not specified otherwise the applicant and its co-applicant(s) are hereinafter jointly referred as the "applicants") (2.1.1),
- and, if any, **affiliated entity(ies)** to the applicant and/or to a co-applicant(s). (2.1.2);

(2) the actions:

Actions for which a grant may be awarded (2.1.4);

(3) the costs:

- types of cost that may be taken into account in setting the amount of the grant (2.1.5).

2.1.1. Eligibility of applicants (i.e. applicant and co-applicant(s))

In case the applicant is a CSO not established⁹ in Serbia, it must act with at least one co-applicant that is established in Serbia.

6 The broadest possible understanding about civil society organisations is applied under this call for proposals, as defined in 1999 by the European Economic and Social Committee (CES/1999/851) and further detailed by both the EESC (CES/1999/851, CES/2000/81) and the EC (COM/2002/0704 final, COM/2005/0290 final).

7 To be determined on the basis of the organisation's statutes, which should demonstrate that it has been established by an instrument governed by the national law of the country concerned and that its head office is located in an eligible country. In this respect, any legal entity whose statutes have been established in another country cannot be considered an eligible local organisation, even if the statutes are registered locally or a 'Memorandum of Understanding' has been concluded.

8 Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an Instrument of Pre-Accession Assistance (IPA).

- (2) The potential applicant may not participate in calls for proposals or be awarded grants if it is in any of the situations listed in Section 2.3.3 of the Practical Guide;

In Part A, section 3 of the grant application form ('Declaration by the applicant'), the applicant must declare that the applicant himself, the co-applicant(s) and affiliated entity(ies) are not in any of these situations.

For projects under the Lot 1 and Lot 2 the applicant may act individually or with co-applicant(s).

For projects under the Lot 3 it is mandatory to have at least one co-applicant from the geographical area targeted by the action.

If awarded the Grant contract, the applicant will become the Beneficiary identified as the Coordinator in annex E3h1 (Special conditions). The Coordinator is the main interlocutor of the Contracting Authority. It represents and acts on behalf of any other co-beneficiary (if any) and coordinate the design and implementation of the Action.

Co-applicant(s)

For projects under the Lot 1 and Lot 2 co-applicant(s) is/are not mandatory.

For projects under the Lot 3 it is mandatory to have at least one co-applicant from the geographical area targeted by the action.

Co-applicant(s) participate in designing and implementing the action, and the costs they incur are eligible in the same way as those incurred by the applicant.

Co-applicant(s) must satisfy the eligibility criteria as applicable to the applicant himself.

Co-applicant(s) must sign the Mandate in Part B section 4 of the grant application form.

In addition to the categories referred in section 2.1.1 for the applicants, the following are however also eligible:

- Public institutions working in the areas relevant for the Call;
- Independent bodies working in the areas relevant for the Call;
- Provincial and local self-governments;
- Media.

If awarded the Grant contract, the co-applicant(s)(if any) will become beneficiaries in the Action (together with the Coordinator).

-
- 9 To be determined on the basis of the organisation's statutes, which should demonstrate that it has been established by an instrument governed by the national law of the country concerned and that its head office is located in an eligible country. In this respect, any legal entity whose statutes have been established in another country cannot be considered an eligible local organisation, even if the statutes are registered locally or a 'Memorandum of Understanding' has been concluded.

2.1.2. Affiliated entities

The applicant and its co-applicant(s) may act with affiliated entity(ies).

Only the following entities may be considered as affiliated entities to the applicant and/or to co-applicant(s):

Only entities having a structural link with the applicants, in particular a legal or capital link.

This structural link encompasses mainly two notions:

- (i) Control, as defined in Directive 2013/34/EU on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings:

Entities affiliated to a beneficiary may hence be:

- Entities directly or indirectly controlled by the beneficiary (daughter companies or first-tier subsidiaries). They may also be entities controlled by an entity controlled by the beneficiary (granddaughter companies or second-tier subsidiaries) and the same applies to further tiers of control;
 - Entities directly or indirectly controlling the beneficiary (parent companies). Likewise, they may be entities controlling an entity controlling the beneficiary;
 - Entities under the same direct or indirect control as the beneficiary (sister companies).
- (ii) Membership, i.e. the beneficiary is legally defined as a e.g. network, federation, association in which the proposed affiliated entities also participate or the beneficiary participates in the same entity (e.g. network, federation, association) as the proposed affiliated entities.

The structural link shall as a general rule be neither limited to the action nor established for the sole purpose of its implementation. This means that the link would exist independently of the award of the grant; it should exist before the call for proposals and remain valid after the end of the action.

By way of exception, an entity may be considered as affiliated to a beneficiary even if it has a structural link specifically established for the sole purpose of the implementation of the action in the case of so-called "sole applicants" or "sole beneficiaries". A sole applicant or a sole beneficiary is an entity formed by several entities (a group of entities) which together comply with the criteria for being awarded the grant. For example, an association is formed by its members.

What is not an affiliated entity?

The following are not considered entities affiliated to a beneficiary:

- Entities that have entered into a (procurement) contract or subcontract with a beneficiary, act as concessionaires or delegates for public services for a beneficiary,
- Entities that receive financial support from the beneficiary,
- Entities that cooperate on a regular basis with the beneficiary on the basis of a memorandum of understanding or share some assets,
- Entities that have signed a consortium agreement under the grant contract.

How to verify the existence of the required link with the beneficiary?

The affiliation resulting from control may in particular be proved on the basis of the consolidated accounts of the group of entities the beneficiary and its proposed affiliates belong to.

The affiliation resulting from membership may in particular be proved on the basis of the statutes or equivalent act establishing the entity (network, federation, association) which the beneficiary constitutes or in which the beneficiary participates.

If the applicants are awarded a contract, their affiliated entity(ies) will not become Beneficiary(ies) of the Action and signatory(ies) of the Contract. However, they will participate in the design and in the implementation of the Action and the costs they incur (including those incurred for Implementation Contracts and Financial Support to third parties) may be accepted as eligible costs, provided they comply with all the relevant rules already applicable to the Beneficiary(ies) under the Grant Contract.

Affiliated entity(ies) must satisfy the same eligibility criteria as the applicant and the co-applicant(s). They must sign the affiliated entity(ies) statement in Part B section 5 of the grant application form.

2.1.3. Associates and Contractors

The following entities are not applicant(s) nor affiliated entity(ies) and do not have to sign the "mandate" or "affiliated entities' statement":

- Associates

Other organisations may be involved in the action. Such associates play a real role in the action but may not receive funding from the grant, with the exception of per diem or travel costs. Associates do not have to meet the eligibility criteria referred to in section 2.1.1. Associates must be mentioned in Part B section 6 — 'Associates of the Applicant participating in the Action' — of the Grant Application Form.

- Contractors

The grant beneficiaries and their affiliated entities are permitted to award contracts. Associates or affiliated entity(ies) cannot be also contractors in the project. Contractors are subject to the procurement rules set out in Annex IV to the standard grant contract.

A co-applicant may not be awarded more than 2 grants under this Call for Proposals.

A co-applicant may be an applicant or an affiliated entity in another application at the same time.

2.1.5. Eligibility of costs: costs that can be included

Only 'eligible costs' can be covered by a grant. The categories of costs that are eligible and non-eligible are indicated below. The budget is both a cost estimate and an overall ceiling for 'eligible costs'.

The reimbursement of eligible costs may be based on any or a combination of the following forms:

- actual costs incurred by the Beneficiary(ies) and affiliated entity(ies)
- one or more simplified cost options.

Simplified cost options may take the form of:

- **unit costs:** covering all or certain specific categories of eligible costs which are clearly identified in advance by reference to an amount per unit.
- **lump sums:** covering in global terms all or certain specific categories of eligible costs which are clearly identified in advance.
- **flat-rate financing:** covering specific categories of eligible costs which are clearly identified in advance by applying a percentage fixed ex ante.

The amounts or rates have to be based on estimates using objective data such as statistical data or any other objective means or with reference to certified or auditable historical data of the applicants or the affiliated entity(ies). The methods used to determine the amounts or rates of unit costs, lump sums or flat-rates must comply with the criteria established in Annex K, and especially ensure that the costs correspond fairly to the actual costs incurred by the Grant Beneficiary(ies) and affiliated entity(ies), are in line with their accounting practices, no profit is made and the costs are not already covered by other sources of funding (no double funding). Refer to Annex K for directions and a checklist of controls to assess the minimum necessary conditions that provide reasonable assurance for the acceptance of the proposed amounts.

The applicant proposing this form of reimbursement, must clearly indicate in worksheet no.1 of Annex B, each heading/item of eligible costs concerned by this type of financing, i.e. add the reference in capital letters to "UNIT COST" (per month/flight etc), "LUMPSUM" or "FLAT RATE" in the Unit column. (see example in Annex K)

Additionally in Annex B, in the second column of worksheet no.2, "Justification of the estimated costs" per each of the corresponding budget item or heading the applicant must:

- describe the information and methods used to establish the amounts of unit costs, lump sums and/or flat-rates, to which costs they refer, etc.
- clearly explain the formulas for calculation of the final eligible amount¹¹
- identify the beneficiary who will use the simplified cost option (in case of affiliated entity, specify first the beneficiary), in order to verify the maximum amount per each beneficiary (which includes if applicable simplified cost options of its affiliated entity(ies))

At contracting phase, the Contracting Authority decides whether to accept the proposed amounts or rates on the basis of the provisional budget submitted by the applicant, by analysing factual data of grants carried out by the applicant or of similar actions and by performing checks established by Annex K.

The total amount of financing on the basis of simplified cost options that can be authorised by the Contracting Authority for any of the applicants individually (including simplified cost options proposed by their own affiliated entities) cannot exceed EUR 60 000 (the indirect costs are not taken into account)..

For the purpose of this call, the Contracting Authority authorises the use of simplified cost options only to the following budget subheadings: 1.1. and 1.2 Salaries.

Recommendations to award a grant are always subject to the condition that the checks preceding the signing of the contract do not reveal problems requiring changes to the budget (such as arithmetical errors, inaccuracies, unrealistic costs and ineligible costs). The checks may give rise to requests for clarification and may lead the Contracting Authority to impose modifications or reductions to address such mistakes or inaccuracies. It is not possible to increase the grant or the percentage of EU co-financing as a result of these corrections.

It is therefore in the applicant's interest to provide a **realistic and cost-effective budget**.

Eligible direct costs

To be eligible under the Call for Proposals, costs must comply with the provisions of Article 14 of the General Conditions to the Standard Grant Contract (see Annex G of the Guidelines).

¹¹ Examples:- for staff costs: number of hours or days of work * hourly or daily rate pre-set according to the category of personnel concerned;- for travel expenses: distance in km * pre-set cost of transport per km; number of days * daily allowance pre-set according to the country;- for specific costs arising from the organization of an event: number of participants at the event * pre-set total cost per participant etc.

3

The applicants (and where applicable its affiliated entities) agree that the expenditure verification(s) referred to in Article 15.7 of the General Conditions to the Standard Grant Contract (see Annex G of the Guidelines) will be carried out by the Contracting Authority or any external body authorised by Contracting Authority.

Contingency reserve

The budget may include a contingency reserve not exceeding 5 % of the estimated direct eligible costs. It can only be used with the **prior written authorisation** of the Contracting Authority.

Eligible indirect costs

The indirect costs incurred in carrying out the action may be eligible for flat-rate funding, but the total must not exceed 7% of the estimated total eligible direct costs. Indirect costs are eligible provided that they do not include costs assigned to another budget heading in the standard grant contract. The applicant may be asked to justify the percentage requested before the contract is signed. However, once the flat rate has been fixed in the special conditions of the standard grant contract, no supporting documents need to be provided.

If any of the applicants or affiliated entity(ies) is in receipt of an operating grant financed by the EU, it may not claim indirect costs on its incurred costs within the proposed budget for the action.

Contributions in kind

Contributions in kind mean the provision of goods or services to a Beneficiary(ies) or affiliated entity(ies) free of charge by a third party. As contributions in kind do not involve any expenditure for a Beneficiary(ies) or affiliated entity(ies), they are not eligible costs.

The contributions in kind may not be treated as co-financing. However, if the description of the action as proposed includes contributions in kind, the contributions have to be made.

Ineligible costs

The following costs are not eligible:

- taxes, including value added taxes¹²;
- customs and import duties, or any other charges;
- purchase, rent or leasing of land and existing buildings;
- fines, financial penalties and expenses of litigation;
- operating costs, except where otherwise provided for under framework agreements with international organisations;
- second-hand equipment;

- contribution in kind;
- any leasing costs;
- depreciation costs;
- debts and debt services charges;
- provisions for losses or potential future liabilities;
- costs declared by the Beneficiary(ies) and financed by another action or work programme receiving a Union (including through EDF) grant;
- credits to third parties;
- salary costs of the personnel of national administrations.

12 VAT might be considered as eligible expense if following conditions are met: a) the value added taxes are not recoverable by and means; b) it is established that they are borne by the final beneficiary, and c) they are clearly identified in the project proposal.

2.2. HOW TO APPLY AND THE PROCEDURES TO FOLLOW

Prior registration in PADOR for this Call for Proposals is obligatory.

- **Phase 1, concept note:** Registration in PADOR is obligatory for an applicant applying for grants above EUR 60,000.

Registration is optional though strongly recommended for:

- An applicant applying for grants of EUR 60,000 or less;
- co-applicant(s) and affiliated entity(ies).
- **Phase 2, full proposal:** Registration in PADOR is obligatory for all pre-selected applicant, co-applicant(s) and all their affiliated entity(ies).]

PADOR is an on-line database in which organisations register and update their data regularly, through the EuropeAid website: http://ec.europa.eu/europeaid/work/online-services/pador/index_en.htm

Before starting to register your organisation in PADOR, please read the 'Quick guide' on the website. It explains the registration process.

It is strongly recommended to register in PADOR when you start drafting your proposal and not to wait until just before the deadline of submission.

On the paper version of the proposal you must give your EuropeAid ID (EID). To get this ID, your organisation must enter PADOR to register, save and 'sign' certain obligatory data (the fields shown in orange on each screen) and the related documents (see section 2.4).

However, if it is impossible for the organisation to register in PADOR, it must submit a justification proving that this impossibility is general and beyond the control of the applicant and/or its affiliated entity(ies). In such cases, the applicants and/or affiliated entity(ies) concerned must complete the 'PADOR off-line form attached to these Guidelines and send it by the submission deadline, together with the application, to the address indicated in sections 2.2.2 and 2.2.6. The registration in PADOR will then be carried out by the European Commission service in charge of the Call for Proposals. If, at a later stage, the organisation wishes to update its data itself, it will have to send an access request to the PADOR helpdesk.

All questions related to registration in PADOR should be addressed to the PADOR helpdesk at: Europeaid-pador@ec.europa.eu

2.2.1. Concept Note content

Applications must be submitted in accordance with the Concept Note instructions in the Grant Application Form annexed to these Guidelines (Annex A).

Applicants must apply in English.

In the Concept Note, applicants must only provide an estimate of the amount of contribution requested from the Contracting Authority and an indicative percentage of that contribution in relation to the total amount of the Action. Only the applicant invited to submit a full application in the second phase will be required to present a detailed budget. The elements outlined in the Concept Note may not be modified by the applicant in the full application form. The EU contribution may not vary from the initial estimate by more than 20%. Applicants are free to adapt the percentage of co-financing required within the minimum and maximum amount and percentages of co-financing, as laid down in these Guidelines in section 1.3. Own contributions by the applicants can be replaced by other donors' contributions at any time.

Any error or major discrepancy related to the points listed in the Concept Note instructions may lead to the rejection of the Concept Note.

Clarifications will only be requested when information provided is unclear and thus prevents the Contracting Authority from conducting an objective assessment.

Hand-written Concept Notes will not be accepted.

Please note that only the Concept Note form will be evaluated. It is therefore of utmost importance that this document contain ALL relevant information concerning the action. No additional annexes should be sent.

2.2.2. Where and how to send Concept Notes

An electronic version of the Concept Note must also be submitted. A CD-Rom with the Concept Note in electronic format will be included, along with the paper version, in a sealed envelope as described below. The electronic file must contain **exactly the same** application as the paper version enclosed.

Where applicants send several different Concept Notes (if allowed to do so by the Guidelines of the Call), each one must be sent separately.

The outer envelope must bear the **reference number and the title of the call for proposals**, together with the full name and address of the applicant, and the words 'Not to be opened before the opening session' and '*Ne otvarati pre zvanične sednice otvaranja*'.

Concept Notes must be submitted in a sealed envelope by registered mail, private courier service or by hand-delivery (a signed and dated certificate of receipt will be given to the deliverer) to the address below:

2.3. EVALUATION AND SELECTION OF APPLICATIONS

Applications will be examined and evaluated by the Contracting Authority with the possible assistance of external assessors. All actions submitted by applicants will be assessed according to the following steps and criteria.

If the examination of the application reveals that the proposed action does not meet the eligibility criteria stated in paragraph 2.1, the application will be rejected on this sole basis.

(1) STEP 1: OPENING & ADMINISTRATIVE CHECKS AND CONCEPT NOTE EVALUATION

The following will be assessed:

- Compliance with the submission deadline. If the deadline has not been met, the application will automatically be rejected.
- Concept Note satisfies all the criteria specified in points 1-5 of the Checklist Section 2 of Part A of the grant application form). If any of the requested information is missing or is incorrect, the application may be rejected on that sole basis and the application will not be evaluated further.

The Concept Notes that pass the first administrative check will be evaluated on the relevance and design of the proposed action.

The Concept Note will receive an overall score out of 50 using the breakdown in the evaluation grid below. The evaluation will also check on compliance with the instructions on the Concept Note, which can be found in Part A of the Application Form.

The evaluation criteria are divided into headings and subheadings. Each subheading will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

3

1. Relevance of the action		Sub-score	30
1.1 How relevant is the proposal to the objectives and priorities of the Call for Proposals?*		5x2**	
1.2 How relevant to the particular needs and constraints of the target country(ies) or region(s) is the proposal (including synergy with other EU initiatives and avoidance of duplication)?		5x2*	
1.3 How clearly defined and strategically chosen are those involved (final beneficiaries, target groups)? Have their needs been clearly defined and does the proposal address them appropriately?		5	
1.4 Does the proposal contain specific added-value elements, such as environmental issues, promotion of gender equality and equal opportunities, needs of disabled people, rights of minorities and rights of indigenous peoples, or innovation and best practices?		5	
2. Design of the action		Sub-score	20
2.1 How coherent is the overall design of the action? In particular, does it reflect the analysis of the problems involved, take into account external factors and relevant stakeholders?		5x2**	
2.2 Is the action feasible and consistent in relation to the objectives and expected results?		5x2**	

TOTAL SCORE**50**

* Note: A score of 5 (very good) will only be allocated if the proposal specifically addresses more than one priority per Lot as indicated in Section 2.1.4 of these guidelines, under section on Specific sector or themes to which the action must relate.

**these scores are multiplied by 2 because of their importance

Once all Concept Notes have been assessed, a list will be drawn up with the proposed actions ranked according to their total score.

First, only the Concept Notes with a score of at least 30 will be considered for pre-selection.

Secondly, the number of Concept Notes will be reduced, taking account of the ranking, to the number of Concept Notes whose total aggregate amount of requested contributions is equal to 200% of the available budget for this Call for Proposals. The amount of requested contributions of each concept note will be based on the indicative financial envelopes for each lot.

After the evaluation of Concept Notes, the Contracting Authority will send letters to all applicants, indicating whether their application was submitted by the deadline, informing them of the reference number they have been allocated, whether the Concept Note was evaluated and the results of that evaluation. The pre-selected applicants will subsequently be invited to submit full applications.

(2) STEP 2: EVALUATION OF THE FULL APPLICATION

First, the following will be assessed:

- Compliance with the submission deadline. If the deadline has not been met, the application will automatically be rejected.
- The full application form satisfies all the criteria specified in points 1-9 of the Checklist (Section 7 of Part B of the grant application form). If any of the requested information is missing or is incorrect, the application may be rejected on that **sole** basis and the application will not be evaluated further.

The quality of the applications, including the proposed budget and capacity of the applicants and affiliated entity(ies), will be evaluated using the evaluation criteria in the evaluation grid below. There are two types of evaluation criteria: selection and award criteria.

The selection criteria help to evaluate the applicant(s)'s and affiliated entity(ies) operational capacity and the applicant's financial capacity and to ensure that they:

- have stable and sufficient sources of finance to maintain their activity throughout the proposed action and, where appropriate, to participate in its funding;
- have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This also applies to any affiliated entity(ies) of the applicants.

The award criteria help to evaluate the quality of the applications in relation to the objectives and priorities, and to award grants to projects which maximise the overall effectiveness of the Call for Proposals. They help to select applications which the Contracting Authority can be confident will comply with its objectives and priorities. They cover the relevance of the action, its consistency with the objectives of the Call for Proposals, quality, expected impact, sustainability and cost-effectiveness.

Scoring:

Scoring:

The evaluation grid is divided into sections and subsections. Each subsection will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

Note on section 1. Financial and operational capacity

If the total score for section 1 is less than 12 points, the application will be rejected. If the score for at least one of the subsections under section 1 is 1, the application will also be rejected.

Provisional selection

After the evaluation, a table will be drawn up listing the applications ranked according to their score and within the limits of the funds available. In addition, a reserve list will be drawn up following the same criteria to be used if more funds should become available during the validity period of the reserve list.

(3) STEP 3: VERIFICATION OF ELIGIBILITY OF THE APPLICANTS AND AFFILIATED ENTITY(IES)

The eligibility verification, based on the supporting documents requested by the Contracting Authority (see Section 2.4) will only be performed for the applications that have been provisionally selected according to their score and within the available financial envelope.

- The Declaration by the applicant (Section 8 of Part B the grant application form) will be cross-checked with the supporting documents provided by the applicant. Any missing supporting document or any incoherence between the Declaration by the applicant and the supporting documents may lead to the rejection of the application on that sole basis.
- The eligibility of applicants, the affiliated entities(ies), and the action will be verified according to the criteria set out in Sections 2.1.1, 2.1.2, 2.1.3 and 2.1.4.

Any rejected application will be replaced by the next best placed application in the reserve list that falls within the available financial envelope.

2.4. SUBMISSION OF SUPPORTING DOCUMENTS FOR PROVISIONALLY SELECTED APPLICATIONS

An applicant that has been provisionally selected or placed on the reserve list will be informed in writing by the Contracting Authority. It will be requested to supply the following documents in order to allow the Contracting Authority to verify the eligibility of the applicant, (if any) of the co-applicant(s) and (if any) of their affiliated entity(ies)¹³:

Supporting documents may/must be provided through PADOR, see Section 2.2

1. The statutes or articles of association of the applicant, (if any) of each co-applicant(s) and (if any) of each affiliated entity(ies)¹⁴. Where the Contracting Authority has recognised the applicant's, or the co-applicant(s)'s, or their affiliated entity(ies)'s eligibility for another call for proposals under the same budget line within 2 years before the deadline for receipt of applications, it should be submitted, instead of the statutes or articles of association, a copy of the document proving their eligibility in a former Call (e.g. a copy of the special conditions of a grant contract received during the reference period), unless a change in legal status has occurred in the meantime¹⁵. This obligation does not apply to international organisations which have signed a framework agreement with the European Commission.
2. A copy of the applicant's latest accounts (the profit and loss account and the balance sheet for the last financial year for which the accounts have been closed)¹⁶. A copy of the latest account is not required from (if any) the co-applicant(s)).
3. Legal entity sheet (see annex D of these Guidelines) duly completed and signed by each of the applicants (i.e. by the applicant and (if any) by each co-applicant(s), accompanied by the justifying documents requested there. If the applicants have already signed a contract with the Contracting Authority, instead of the legal entity sheet and supporting documents, the legal entity number may be provided, unless a change in legal status occurred in the meantime.

13 No supporting document will be requested for applications for a grant not exceeding EUR 60000.

14 Where the applicant and/or a co-applicant(s) and or an affiliated entity(ies) is a public body created by a law, a copy of the said law must be provided.

15 To be inserted only where the eligibility conditions have not changed from one call for proposals to the other.

16 This obligation does not apply to natural persons who have received a scholarship or that are in most need in receipt of direct support, nor to public bodies and to international organisations. It does not apply either when the accounts are in practice the same documents as the external audit report already provided pursuant to Section 2.4.2.

4. A financial identification form of the applicant (not from co-applicant(s)) conforming to the model attached at Annex E of these Guidelines, certified by the bank to which the payments will be made. This bank should be located in the country where the applicant is established. If the applicant has already submitted a financial identification form in the past for a contract where the European Commission was in charge of the payments and intends to use the same bank account, a copy of the previous financial identification form may be provided instead.

Where the requested supporting documents are not uploaded in PADOR they must be supplied in the form of originals, photocopies or scanned versions (i.e. showing legible stamps, signatures and dates) of the said originals. However, the Legal entity sheet and the financial identification form must always be submitted in original.

Where such documents are not in one of the official languages of the European Union or in the language of the country where the action is implemented, a translation into English of the relevant parts of these documents proving the applicant(s)'s eligibility, must be attached and will prevail for the purpose of analysing the application.

Where these documents are in an official language of the European Union other English, it is **strongly** recommended, in order to facilitate the evaluation, to provide a translation of the relevant parts of the documents, proving the applicants' eligibility, into English.

If the abovementioned supporting documents are not provided before the deadline indicated in the request for supporting documents sent to the applicant by the Contracting Authority, the application may be rejected.

After verifying the supporting documents, the Evaluation Committee will make a final recommendation to the Contracting Authority, which will decide on the award of grants.

NB : In the eventuality that the Contracting Authority is not satisfied with the strength, solidity, and guarantee offered by the structural link between one of the applicants and its affiliated entity, it can require the submission of the missing documents allowing for its conversion into co-applicant. If all the missing documents for co-applicants are submitted, and provided all necessary eligibility criteria are fulfilled, the above mentioned entity becomes a co-applicant for all purposes. The applicant has to submit the application form revised accordingly.

2.5. NOTIFICATION OF THE CONTRACTING AUTHORITY'S DECISION

2.5.1. *Content of the decision*

The applicant will be informed in writing of the Contracting Authority's decision concerning their application and, if rejected, the reasons for the negative decision.

An applicant believing that it has been harmed by an error or irregularity during the award process may lodge a complaint. See further Section 2.4.15 of the Practical Guide.

¹⁷ Note that according to the financial regulation, notifications to the applicant on the outcome of the evaluation of their applications must take place within 6 months following the submission deadline of the full application, save in exceptional cases, in particular for complex actions, large number of proposals or where there have been delays attributable to the applicants where this limit may be exceeded. Multi-beneficiary calls can be considered as complex actions calls and therefore may benefit from an exemption to the 6 month rule. The 6 months rule only applies in case of direct centralized management.

¹⁸ Note that according to the financial regulation, the signing of a grant contract with the applicant must take place within 3 months from when it was notified the decision to award a contract. 2.6. CONDITIONS FOR IMPLEMENTATION AFTER THE CONTRACTING AUTHORITY'S DECISION TO AWARD A GRANT

Following the decision to award a grant, the Beneficiary(ies) will be offered a contract based on the Contracting Authority's grant contract (see Annex G of these Guidelines). By signing the application form (Annex A of these Guidelines), the applicants agree, if awarded a grant, to accept the contractual conditions of the standard grant contract.

Implementation contracts

Where implementation of the action requires the Beneficiary(ies) and its affiliated entity(ies) (if any) to award procurement contracts, those contracts must be awarded in accordance with Annex IV to the standard grant contract.

2.7. EARLY WARNING SYSTEM AND CENTRAL EXCLUSION DATABASE
