1 CIVIL SOCIETY FACILITY 2015

1.1 BACKGROUND

Strengthening the rule of law and fundamental rights remains a key challenge for most of the countries in the enlargement process. In 2012 the European Commission started, implementation of the new approach in the accession negotiations to Chapters 23-Judiciary and fundamental rights and 24-Justice, freedom and security, thus ensuring they are addressed in the beginning of the accession process. The stronger role for civil society to enhance political accountability and promote deeper understanding of accession related reforms in this process is highlighted in recommendations of the Enlargement Strategy 2015⁴. Support to civil society is essential in influencing public sector reform processes and to enhance communication on enlargement process implications for citizens' lives.

DG Enlargement developed guidelines for the EU support to civil society in enlargement countries for the period 2014-2020⁵. The guidelines include a set of objectives, results and indicators for the EU support to civil society which will allow for the measurement of progress at country level as well across the enlargement region.

Support to civil society is reflected in two main goals: achieving an environment that is conducive to civil society activities and building the capacity of CSOs to be effective and accountable independent actors. The financial assistance from both multi-country and national IPA envelopes is aiming for longer term contracts, recognising that capacity building and advocacy work requires time and resources, support to foster partnership and coalition building and doing more to reach out to grass-root organisations, in particular through re-granting and flexible support mechanisms to respond to their immediate needs.

The “Civil Society Facility” (CSF) is one of the European Commission’s instruments for supporting the development of the civil society in the enlargement countries. It was set up in 2008 and since then has been providing the pre-accession assistance to the civil society in the Western Balkans and Turkey, through National and Multi-beneficiary initiatives. The overall objective of the CSF programme is to contribute to anchoring democratic values and structures, human rights, social inclusion and the rule of law, thereby supporting the EU integration process.

This Call for Proposals is financed through the Civil Society Facility 2015 National Programme initiative. Support in the form of long term grants, which include capacity building of grassroots organisations, will be provided to increase the effectiveness of the Serbian CSOs in undertaking initiatives focused on Chapters 23 and 24, regional cooperation and the civil society participation in the process of negotiations in Serbia and policy monitoring.

1.2 OBJECTIVES OF THE PROGRAMME AND PRIORITY ISSUES

The **global objective** of this call for proposals is:

To strengthen participatory democracies and the EU integration process by empowering civil society to actively take part in decision making and by stimulating an enabling legal and financial environment for civil society.

The **specific objectives** of this call for proposals are:

- To increase the effectiveness of the Serbian CSOs in undertaking initiatives focused on Chapter 23 and 24;

- To enhance regional cooperation
- To strengthen the role of civil society organisations in the process of negotiations with the EU and policy monitoring.

1.3 FINANCIAL ALLOCATION PROVIDED BY THE CONTRACTING AUTHORITY

The overall indicative amount made available under this call for proposals is **EUR 3,800,000**. The Contracting Authority reserves the right not to award all available funds.

Size of grants

Any grant requested under this call for proposals must fall between the following minimum and maximum amounts:

- **minimum amount: EUR 300,000**
- **maximum amount: EUR 500,000**

Any grant requested under this call for proposals must fall between the following minimum and maximum percentages of total eligible costs of the action:

- **Minimum percentage: 50% of the total eligible costs of the action.**
- **Maximum percentage: 90% of the total eligible costs of the action (see also section 2.1.5).**

The balance (i.e. the difference between the total cost of the action and the amount requested from the Contracting Authority) must be financed from sources other than the European Union Budget or the European Development Fund⁶.

⁶ Where a grant is financed by the European Development Fund, any mention of European Union financing must be understood as referring to European Development Fund financing.

2 RULES FOR THIS CALL FOR PROPOSALS

These guidelines set out the rules for the submission, selection and implementation of the actions financed under this call, in conformity with the Practical Guide, which is applicable to the present call (available at <http://ec.europa.eu/europeaid/prag/document.do?locale=en>)⁷.

2.1 ELIGIBILITY CRITERIA

There are three sets of eligibility criteria, relating to:

(1) the actors:

- The lead **applicant**, i.e. the entity submitting the concept note and the full application form (2.1.1),
- if any, its **co-applicant(s)** (where it is not specified otherwise the lead applicant and its co-applicant(s) are hereinafter jointly referred as the "applicants") (2.1.1),
- and, if any, **affiliated entity(ies)** to the lead applicant and/or to a co-applicant(s). (2.1.2);

(2) the actions:

- Actions for which a grant may be awarded (2.1.4);

(3) the costs:

- types of cost that may be taken into account in setting the amount of the grant (2.1.5).

2.1.1 Eligibility of applicants (i.e. lead applicant and co-applicant(s))

Lead applicant

(1) In order to be eligible for a grant, the lead applicant must:

- be legal persons **and**
- be non-profit-making **and**
- be civil society organisations⁸ **and**
- be established in⁹ a Member State of the European Union or, in a country covered by the Article 10 of the IPA Regulation¹⁰ **and**

⁷ Note that a lead applicant (i.e. a Coordinator) whose pillars have been positively assessed by the European Commission and who is awarded a grant will not sign the standard grant contract published with these guidelines but a PA Grant Agreement based on the PAGoDA template. All references in these guidelines and other documents related to this call to the standard grant contract shall in this case be understood as referring to the relevant provisions of the PAGoDA template.

⁸ The broadest possible understanding about civil society organisations is applied under this call for proposals, as defined in 1999 by the European Economic and Social Committee (CES/1999/851) and further detailed by both the EESC (CES/1999/851, CES/2000/81) and the EC (COM/2002/0704 final, COM/2005/0290 final).

- be directly responsible for the preparation and management of the action with the co-applicant(s) and affiliated entity(ies), not acting as an intermediary **and**
- in case the lead applicant is a CSO not established in Serbia, it must act with at least one co-applicant that is established in Serbia.

(2) Potential applicants may not participate in calls for proposals or be awarded grants if they are in any of the situations listed in section 2.3.3 of the Practical Guide;

In Annex A.2, section 5 ('declaration by the lead applicant'), the lead applicant must declare that the lead applicant himself, the co-applicant(s) and affiliated entity(ies) are not in any of these situations.

The lead applicant must act with at least one co-applicant.

If awarded the grant contract, the lead applicant will become the beneficiary identified as the Coordinator in Annex E3h1 (Special Conditions). The Coordinator is the main interlocutor of the Contracting Authority. It represents and acts on behalf of any other co-beneficiary (if any) and coordinate the design and implementation of the action.

Co-applicant(s)

At least one co-applicant is mandatory for this Call for Proposals. In case the applicant is a CSO not established in Serbia, it must act with at least one co-applicant that is established in Serbia.

Co-applicants participate in designing and implementing the action, and the costs they incur are eligible in the same way as those incurred by the lead applicant.

Co-applicants must satisfy the eligibility criteria as applicable to the lead applicant.

In addition to the categories referred to in section 2.1.1, the following are however also eligible:

- Media (print, electronic, on-line media, news agencies and media productions);
- Independent bodies and independent regulators working in the areas relevant for the Call.

Co-applicants must sign the mandate in Annex A.2., section 4.

If awarded the grant contract, the co-applicant(s) (if any) will become beneficiary(ies) in the action (together with the Coordinator).

2.1.2 Affiliated entities

Affiliated entity(ies)

The lead applicant and its co-applicant(s) may act with affiliated entity(ies).

⁹ To be determined on the basis of the organisation's statutes that should demonstrate that it has been established by an instrument governed by the national law of the country concerned and that its head office is located in an eligible country. In this respect, any legal entity whose statutes have been established in another country cannot be considered an eligible local organisation, even if the statutes are registered locally or a 'Memorandum of Understanding' has been concluded.

¹⁰ Regulation (EU) N°236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action

Only the following entities may be considered as affiliated entities to the lead applicant and/or to co-applicant(s):

Only entities having a structural link with the applicants (i.e. the lead applicant or a co-applicant), in particular a legal or capital link.

This structural link encompasses mainly two notions:

- (i) Control, as defined in Directive 2013/34/EU on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings:

Entities affiliated to applicant may hence be:

- Entities directly or indirectly controlled by an applicant (daughter companies or first-tier subsidiaries). They may also be entities controlled by an entity controlled by an applicant (granddaughter companies or second-tier subsidiaries) and the same applies to further tiers of control;
- Entities directly or indirectly controlling the applicant (parent companies). Likewise, they may be entities controlling an entity controlling the applicant;
- Entities under the same direct or indirect control as the applicant (sister companies).

- (ii) Membership, i.e. the applicant is legally defined as a e.g. network, federation, association in which the proposed affiliated entities also participate or the applicant participates in the same entity (e.g. network, federation, association) as the proposed affiliated entities.

The structural link shall as a general rule be neither limited to the action nor established for the sole purpose of its implementation. This means that the link would exist independently of the award of the grant; it should exist before the call for proposals and remain valid after the end of the action.

By way of exception, an entity may be considered as affiliated to an applicant even if it has a structural link specifically established for the sole purpose of the implementation of the action in the case of so-called "sole applicants" or "sole beneficiaries". A sole applicant or a sole beneficiary is a legal entity formed by several entities (a group of entities) which together comply with the criteria for being awarded the grant. For example, an association is formed by its members.

What is not an affiliated entity?

The following are not considered entities affiliated to an applicant:

- Entities that have entered into a (procurement) contract or subcontract with an applicant, act as concessionaires or delegates for public services for an applicant,
- Entities that receive financial support from an applicant,
- Entities that cooperate on a regular basis with an applicant on the basis of a memorandum of understanding or share some assets,
- Entities that have signed a consortium agreement under the grant contract (unless this consortium agreement leads to the creation of a "sole applicant" as described above).

How to verify the existence of the required link with an applicant?

The affiliation resulting from control may in particular be proved on the basis of the consolidated accounts of the group of entities the applicant and its proposed affiliates belong to.

The affiliation resulting from membership may in particular be proved on the basis of the statutes or equivalent act establishing the entity (network, federation, association) which the applicant constitutes or in which the applicant participates.

If the applicants are awarded a grant contract, their affiliated entity(ies) will not become beneficiary(ies) of the action and signatory(ies) of the grant contract. However, they will participate in the design and in the implementation of the action and the costs they incur (including those incurred for implementation contracts and financial support to third parties) may be accepted as eligible costs, provided they comply with all the relevant rules already applicable to the beneficiary(ies) under the grant contract.

Affiliated entity(ies) must satisfy the same eligibility criteria as the lead applicant and the co-applicant(s). They must sign the affiliated entity(ies) statement in Annex A.2., section 5.

2.1.3 Associates and Contractors

The following entities are not applicants nor affiliated entities and do not have to sign the "mandate for co-applicant(s)" or "affiliated entities' statement":

- Associates

Other organisations or individuals may be involved in the action. Such associates play a real role in the action but may not receive funding from the grant, with the exception of per diem or travel costs. Associates do not have to meet the eligibility criteria referred to in section 2.1.1. Associates must be mentioned in Annex A.2., section 4 — 'Associates participating in the action'.

- Contractors

The beneficiaries and their affiliated entities are permitted to award contracts. Associates or affiliated entity(ies) cannot be also contractors in the project. Contractors are subject to the procurement rules set out in Annex IV to the standard grant contract.

- (v) the criteria for determining the exact amount of financial support for each third entity, and
- (vi) the maximum amount which may be given.

In all events, the mandatory conditions set above for giving financial support (points (i) to (vi)) have to be strictly defined in the grant contract as to avoid any exercise of discretion.

For the purposes of this Call for Proposals, third parties are civil society organisations in Serbia.

All the types of actions which may be financed under this call are also eligible for financial support to third parties.

The lead applicant **may not submit more than one application** under this call for proposals.

A co-applicant/affiliated entity **may not submit more than one application** under this call for proposals.

A co-applicant/affiliated entity **may not be awarded more than one grant** under this call for proposals.

2.1.5 Eligibility of costs: costs that can be included

Only 'eligible costs' can be covered by a grant. The categories of costs that are eligible and non-eligible are indicated below. The budget is both a cost estimate and an overall ceiling for 'eligible costs'.

The reimbursement of eligible costs may be based on any or a combination of the following forms:

- actual costs incurred by the beneficiary(ies) and affiliated entity(ies)
- one or more simplified cost options.

Simplified cost options may take the form of:

- **unit costs:** covering all or certain specific categories of eligible costs which are clearly identified in advance by reference to an amount per unit.
- **lump sums:** covering in global terms all or certain specific categories of eligible costs which are clearly identified in advance.

- **flat-rate financing:** covering specific categories of eligible costs which are clearly identified in advance by applying a percentage fixed ex ante.

The amounts or rates have to be based on estimates using objective data such as statistical data or any other objective means or with reference to certified or auditable historical data of the applicants or the affiliated entity(ies). The methods used to determine the amounts or rates of unit costs, lump sums or flat-rates must comply with the criteria established in Annex K, and especially ensure that the costs correspond fairly to the actual costs incurred by the beneficiary(ies) and affiliated entity(ies), are in line with their accounting practices, no profit is made and the costs are not already covered by other sources of funding (no double funding). Refer to Annex K for directions and a checklist of controls to assess the minimum necessary conditions that provide reasonable assurance for the acceptance of the proposed amounts.

Applicants proposing this form of reimbursement, must clearly indicate in worksheet no.1 of Annex B, each heading/item of eligible costs concerned by this type of financing, i.e. add the reference in capital letters to "UNIT COST" (per month/flight etc), "LUMPSUM" or "FLAT RATE" in the Unit column. (see example in Annex K)

Additionally in Annex B, in the second column of worksheet no.2, "Justification of the estimated costs" per each of the corresponding budget item or heading applicants must:

- describe the information and methods used to establish the amounts of unit costs, lump sums and/or flat-rates, to which costs they refer, etc.
- clearly explain the formulas for calculation of the final eligible amount¹²
- identify the beneficiary who will use the simplified cost option (in case of affiliated entity, specify first the beneficiary), in order to verify the maximum amount per each beneficiary (which includes if applicable simplified cost options of its affiliated entity(ies))

At contracting phase, the Contracting Authority decides whether to accept the proposed amounts or rates on the basis of the provisional budget submitted by the applicants, by analysing factual data of grants carried out by the applicants or of similar actions and by performing checks established by Annex K.

The total amount of financing on the basis of simplified cost options that can be authorised by the Contracting Authority for any of the applicants individually (including simplified cost options proposed by their own affiliated entities) cannot exceed EUR 60 000 (the indirect costs are not taken into account).

For the purpose of this call, the Contracting Authority authorises the use of simplified cost options only to the following budget subheadings: 1.1 and 1.2 Salaries.

Recommendations to award a grant are always subject to the condition that the checks preceding the signing of the grant contract do not reveal problems requiring changes to the budget (such as arithmetical errors, inaccuracies, unrealistic costs and ineligible costs). The checks may give rise to requests for clarification and may lead the Contracting Authority to impose modifications or reductions to address such mistakes or inaccuracies. It is not possible to increase the grant or the percentage of EU co-financing as a result of these corrections.

It is therefore in the applicants' interest to provide a **realistic and cost-effective budget**.

12 Examples:- for staff costs: number of hours or days of work * hourly or daily rate pre-set according to the category of personnel concerned;- for travel expenses: distance in km * pre-set cost of transport per km; number of days * daily allowance pre-set according to the country;- for specific costs arising from the organization of an event: number of participants at the event * pre-set total cost per participant etc.

The simplified cost option may also take the form of an apportionment of Field Office's costs.

Field Office means a local infrastructure set up in one of the countries where the action is implemented or a nearby country. (Where the action is implemented in several third countries there can be more than one Field Office). That may consist of costs for local office as well as human resources.

A Field Office may be exclusively dedicated to the action financed (or co-financed) by the EU or may be used for other projects implemented in the partner country. When the Field Office is used for other projects, only the portion of capitalised and operating costs which corresponds to the duration of the action and the rate of actual use of the field office for the purpose of the action may be declared as eligible direct costs.

The portion of costs attributable to the action can be declared as actual costs or determined by the beneficiary(ies) on the basis of a simplified allocation method (apportionment).

The method of allocation has to be:

1. Compliant with the beneficiary's usual accounting and management practices and applied in a consistent manner regardless of the source of funding and
2. Based on an objective, fair and reliable allocation keys. (Please refer to Annex K to have examples of acceptable allocation keys).

A description prepared by the entity of the allocation method used to determine Field Office's costs in accordance with the entity's usual cost accounting and management practices and explaining how the method satisfy condition 1 and 2 indicated above, has to be presented in a separate sheet and annexed to the Budget.

The method will be assessed and accepted by the evaluation committee and the Contracting Authority at contracting phase. The applicant is invited to submit (where relevant) the list of contracts to which the methodology proposed had been already applied and for which proper application was confirmed by an expenditure verification.

At the time of carrying out the expenditure verifications, the auditors will check if the costs reported are compliant with the method described by the beneficiary(ies) and accepted by the Contracting Authority.

Adequate record and documentation must be kept by the beneficiary(ies) to prove the compliance of the simplified allocation method used with the conditions set out above. Upon request of the beneficiary(ies), this compliance can be assessed and approved ex-ante by an independent external auditor. In such a case, the simplified allocation method will be automatically accepted by the evaluation committee and it will not be challenged ex post.

When costs are declared on the basis of such allocation method the amount charged to the action is to be indicated in the column "TOTAL COSTS" and the mention "APPORTIONMENT" is to be indicated in the column "units" (under budget heading 1 (Human resources) and 4 (Local Office) of the Budget).

Eligible direct costs

To be eligible under this call for proposals, costs must comply with the provisions of Article 14 of the General Conditions to the standard grant contract (see Annex G of the guidelines).

Contingency reserve

The budget may include a contingency reserve not exceeding 5% of the estimated direct eligible costs. It can only be used with the **prior written authorisation** of the Contracting Authority.

Eligible indirect costs

The indirect costs incurred in carrying out the action may be eligible for flat-rate funding, but the total must not exceed 7% of the estimated total eligible direct costs. Indirect costs are eligible provided that

they do not include costs assigned to another budget heading in the standard grant contract. The lead applicant may be asked to justify the percentage requested before the grant contract is signed. However, once the flat rate has been fixed in the Special Conditions of the grant contract, no supporting documents need to be provided.

If any of the applicants or affiliated entity(ies) is in receipt of an operating grant financed by the EU, it may not claim indirect costs on its incurred costs within the proposed budget for the action.

Contributions in kind

Contributions in kind mean the provision of goods or services to a beneficiaries or affiliated entities free of charge by a third party. As contributions in kind do not involve any expenditure for beneficiaries or affiliated entities, they are not eligible costs.

Contributions in kind may not be treated as co-financing

However, if the description of the action as proposed includes contributions in kind, the contributions have to be made.

Ineligible costs

The following costs are not eligible:

- debts and debt service charges (interest);
- provisions for losses or potential future liabilities;
- costs declared by the beneficiary(ies) and financed by another action or work programme receiving a European Union (including through EDF) grant;
- purchases of land or buildings, except where necessary for the direct implementation of the action, in which case ownership must be transferred, in accordance with Article 7.5 of the General Conditions of the standard grant contract, at the latest at the end of the action;
- currency exchange losses;
- credit to third parties;
- salary costs of the personnel of national administrations;
- in kind contributions;
- taxes, including VAT, duties and charges;
- profit or surplus of the receipts over the eligible costs: no grant may give rise to profits, i.e. it must only balance income and expenditure for the action.

Please take special note of the provision of Article 14 of General Conditions with regards to eligible and ineligible costs, as well as rules to be respected set by Annex IV related to all secondary procurement activities.

2.2 HOW TO APPLY AND THE PROCEDURES TO FOLLOW

- II. Provide information about the action in the documents listed under section 2.2.2. **Online submission via PROSPECT is obligatory for this call.**

It is strongly recommended to register in PADOR well in advance and not to wait until the last minute before the deadline to submit your application in PROSPECT.

If it is impossible for the organisation to register online in PADOR for technical reasons, applicants and/or affiliated entity(ies) must complete the 'PADOR off-line form'¹⁴ attached to these guidelines. This form must be sent **together with the application**, by the submission deadline (see section 2.2.2.).

Before starting using PADOR and PROSPECT, please read the user guides available on the website. All technical questions related to the use of these systems should be addressed to the IT helpdesk at EuropeAid-IT-support@ec.europa.eu **via the online support form in PROSPECT.**

2.2.1 Application forms

Applications must be submitted in accordance with the instructions on the grant application form¹⁵ annexed to these guidelines (**Annexes A.1 and A.2**). Applicants must apply in English.

Any error or major discrepancy related to the concept note or any major inconsistency in the application form (e.g. if the amounts in the budget worksheets are inconsistent) may lead to the rejection of the application.

Clarifications will only be requested when the information provided is not sufficient to conduct an objective assessment.

2.2.2 Where and how to send applications

Online submission:

Applications **must be submitted online** via PROSPECT <https://webgate.ec.europa.eu/europeaid/prospect> following the instructions given in the PROSPECT user manual.

Upon submission of the application online, the lead applicant will receive an automatic confirmation of receipt in its PROSPECT profile.

¹³ Natural persons who apply for a grant (if so allowed in the guidelines) do not have to register in PADOR. In this case, the information included in PROSPECT and in the concept note is sufficient.

¹⁴ Which corresponds to sections 3 and 4 of Annex A.2.

¹⁵ **The grant application form consists of Annex A.1 – concept note – and Annex A.2 – full application form.**

Please note that incomplete applications may be rejected. Lead applicants are advised to verify that their application is complete using the checklist (Annexes A.1 and A.2, Instructions).

2.2.3 Deadline for submission of applications

The deadline for the submission of applications is **13/09/2016 at 15:00 CET** (Brussels date and time). In order to convert this deadline to local time you can use any online time converter tool that takes into account timezones and winter/summer time changes (example available [here](#))¹⁶. **Lead applicants are strongly advised not to wait until the last day to submit their applications**, since heavy Internet traffic or a fault with the Internet connection (including electricity failure, etc.) could lead to difficulties in submission. **The contacting authority cannot be held responsible for any delay due to such aforementioned difficulties.**

Any application submitted after the deadline will be rejected.

However, for reasons of administrative efficiency, the Contracting Authority may also reject any application sent in due time but received after the effective date of approval of the proposal evaluation (see indicative calendar under section 2.5.2).

2.2.4 Further information about applications

Information session on this call for proposals will be held in Belgrade. The schedule of the information session will be published at a later date at the following websites:

- EuropeAid: <https://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome>
- EU Delegation to the Republic of Serbia: www.europa.rs

Questions may be sent by e-mail no later than 21 days before the deadline for the submission of applications to the address(es) below, indicating clearly the reference of the call for proposals:

E-mail address: DELEGATION-SERBIA-FCS@eeas.europa.eu

The Contracting Authority has no obligation to provide clarifications to questions received after this date.

Replies will be given no later than 11 days before the deadline for the submission of applications.

To ensure equal treatment of applicants, the Contracting Authority cannot give a prior opinion on the eligibility of lead applicants, co-applicants, affiliated entity(ies), an action or specific activities.

No individual replies will be given to questions. All questions and answers as well as other important notices to applicants during the course of the evaluation procedure will be published on the EuropeAid website: <https://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome> and the EU Delegation in Serbia website: <http://europa.rs>, as appropriate. It is therefore advisable to consult the abovementioned website regularly in order to be informed of the questions and answers published.

All questions related to registration in PADOR or the online submission via PROSPECT should be addressed to the IT helpdesk at EuropeAid-IT-support@ec.europa.eu **via the online support form in PROSPECT**: Please note that the working languages of the IT support are English, French and Spanish. Therefore, users are invited to send their questions in those languages should they wish to benefit from an optimum response time.

2.3 EVALUATION AND SELECTION OF APPLICATIONS

Applications will be examined and evaluated by the contracting authority with the possible assistance of external assessors. All applications will be assessed according to the following steps and criteria.

If the examination of the application reveals that the proposed action does not meet the eligibility criteria stated in section 2.1, the application will be rejected on this sole basis.

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke extending to the right.

STEP 1: OPENING & ADMINISTRATIVE CHECKS AND CONCEPT NOTE EVALUATION

During the opening¹⁷ and administrative check (including the eligibility check of the action), the following will be assessed:

- If the deadline has been met. Otherwise, the application will be automatically rejected.
- If the concept note satisfies all the criteria specified in the checklist in the instructions included in Annex A.1. This also includes an assessment of the eligibility of the action. If any of the requested information is missing or is incorrect, the application may be rejected on that **sole** basis and the application will not be evaluated further.

The concept notes that pass this check will be evaluated on the relevance and design of the proposed action.

The concept notes will receive an overall score out of 50 in line with the evaluation grid below. The evaluation will also check the compliance with the instructions on how to complete the concept note (Annex A.1).

The evaluation criteria are divided into headings and subheadings. Each subheading will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

Evaluation Grid

Section	Maximum Score
1. Relevance of the action	30
1.1. How relevant is the proposal to the objectives and priorities of the Call for Proposals?	5x2*
1.2. How relevant to the particular needs and constraints of the target country(ies) or region(s) is the proposal (including synergy with other EU initiatives and avoidance of duplication)?	5x2*
1.3. How clearly defined and strategically chosen are those involved (final beneficiaries, target groups)? Have their needs been clearly defined and does the proposal address them appropriately?	5
1.4. Does the proposal contain specific added-value elements, such as environmental issues, promotion of gender equality and equal opportunities, needs of disabled people, rights of minorities and rights of indigenous peoples, or innovation and best practices?	5
2. Design of the action	20
2.1. How coherent is the overall design of the action? In particular, does it reflect the analysis of the problems involved, take into account external factors and relevant stakeholders?	5x2*
2.2. Is the action feasible and consistent in relation to the objectives and expected results?	5x2*
Maximum total score	50

*these scores are multiplied by 2 because of their importance

¹⁷ Only where some applications have been submitted offline.

Concept notes with a score lower than 30 will be rejected.

Concept notes that reach the above threshold will be ranked by score. The highest scoring applications will be pre-selected until the limit of 200% of the available budget for this call for proposals is reached.

Lead applicants will receive a letter indicating the reference number of their application and the respective results. This letter will automatically appear online in the PROSPECT profile of the lead applicant.

The evaluation committee will then proceed with the lead applicants whose proposals have been pre-selected.

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke extending to the right.

STEP 2: EVALUATION OF THE FULL APPLICATION

Firstly, the following will be assessed:

- If the full application form satisfies all the criteria specified in the checklist in Annex A.2. If any of the requested information is missing or is incorrect, the application may be rejected on that **sole** basis and the application will not be evaluated further.

The full applications that pass this check will be further evaluated on their quality, including the proposed budget and the capacity of the applicants and affiliated entity(ies). The evaluation criteria used are presented in the evaluation grid below. There are two types of evaluation criteria: selection and award criteria.

The selection criteria help to evaluate the applicant(s)'s and affiliated entity(ies)'s operational capacity and the lead applicant's financial capacity and are used to verify that they:

- have stable and sufficient sources of finance to maintain their activity throughout the proposed action and, where appropriate, to participate in its funding (this only applies to lead applicants);
- have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This applies to applicants and to any affiliated entity(ies).

For the purpose of the evaluation of the financial capacity, lead applicants must ensure that the relevant information and documents (i.e. accounts of the latest financial year and external audit report, where applicable) in their PADOR profile are up to date. If the information and documents in PADOR are outdated and do not allow for a proper evaluation of the financial capacity, the application may be rejected.

The award criteria help to evaluate the quality of the applications in relation to the objectives and priorities set forth in the guidelines, and to award grants to projects which maximise the overall effectiveness of the call for proposals. They help to select applications which the Contracting Authority can be confident will comply with its objectives and priorities. They cover the relevance of the action, its consistency with the objectives of the call for proposals, quality, expected impact, sustainability and cost-effectiveness.

The evaluation grid is divided into sections and subsections. Each subsection will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

4.3. Are the expected results of the proposed action sustainable?:(1) financially (how will the activities be financed after the funding ends?)(2) institutionally (will structures allowing the activities to continue be in place at the end of the action? Will there be local 'ownership' of the results of the action?)(3) at policy level (where applicable) (what will be the structural impact of the action — e.g. will it lead to improved legislation, codes of conduct, methods, etc?)(4) environmentally (if applicable) (will the action have a negative/positive environmental impact?)"	5

5.1. Are the activities appropriately reflected in the budget?	5
5.2. Is the ratio between the estimated costs and the expected results satisfactory?	10
Maximum total score	100

If the total score for section 1 (financial and operational capacity) is less than 12 points, the application will be rejected. If the score for at least one of the subsections under section 1 is 1, the application will also be rejected.

If the lead applicant applies without co-applicants or affiliated entities the score for point 3.4 shall be 5 unless the involvement of co-applicants or affiliated entities is mandatory according to these guidelines for applicants.

After the evaluation, applications will be ranked according to their score. The highest scoring applications will be provisionally selected until the available budget for this call for proposals is reached.

In addition, a reserve list will be drawn up following the same criteria. This list will be used if more funds become available during the validity period of the reserve list.

STEP 3: VERIFICATION OF ELIGIBILITY OF THE APPLICANTS AND AFFILIATED ENTITY(IES)

The eligibility verification will be performed on the basis of the supporting documents requested by the Contracting Authority (see section 2.4). It will only be performed for the applications that have been provisionally selected according to their score and within the available budget for this call for proposals.

- The declaration by the lead applicant (Annex A.2, section 5) will be cross-checked with the supporting documents provided by the lead applicant. Any missing supporting document or any incoherence between the declaration by the lead applicant and the supporting documents may lead to the rejection of the application on that sole basis.
- The eligibility of applicants and the affiliated entity(ies) will be verified according to the criteria set out in sections 2.1.1, 2.1.2 and 2.1.3.

Any rejected application will be replaced by the next best placed application on the reserve list that falls within the available budget for this call for proposals.

2.4 SUBMISSION OF SUPPORTING DOCUMENTS FOR PROVISIONALLY SELECTED APPLICATIONS

A lead applicant whose application has been provisionally selected or placed on the reserve list will be informed in writing by the Contracting Authority. It will be requested to supply the following documents in order to allow the Contracting Authority to verify the eligibility of the lead applicant, (if any) of the co-applicant(s) and (if any) of their affiliated entity(ies)¹⁹:

Supporting documents must be provided through PADOR (see section 2.2.)

1. The statutes or articles of association of the lead applicant, (if any) of each co-applicant(s) and (if any) of each affiliated entity(ies)²⁰. Where the Contracting Authority has recognised the lead applicant's, or the co-applicant(s)'s, or their affiliated entity(ies)'s eligibility for another call for proposals under the same budget line within 2 years before the deadline for receipt of applications, it should be submitted, instead of the statutes or articles of association, a copy of the document proving their eligibility in a former call (e.g. a copy of the Special Conditions of a grant contract received during the reference period), unless a change in legal status has occurred in the meantime²¹. This obligation does not apply to international organisations which have signed a framework agreement with the European Commission.
2. A copy of the lead applicant's accounts of the latest financial year (the profit and loss account and the balance sheet for the last financial year for which the accounts have been closed) **must be uploaded in PADOR by the full application deadline**. A copy of the latest account is neither required from (if any) the co-applicant(s) nor from (if any) affiliated entity(ies)).
3. An external audit report produced by an approved auditor, certifying the lead applicant's accounts for the last financial year available where the total amount of the requested EU contribution exceeds EUR 750 000 (EUR 100 000 for an operating grant). The external audit report is not required from (if any) the co-applicant(s) or affiliated entity(ies).

This obligation does not apply to public bodies and international organisations provided that the international organisation in question offers the guarantees provided for in the applicable Financial Regulation, as described in chapter 6 of the Practical Guide.

4. Legal entity sheet (see Annex D of these guidelines) duly completed and signed by each of the applicants (i.e. by the lead applicant and (if any) by each co-applicant(s), accompanied by the justifying documents requested there. If the applicants have already signed a contract with the Contracting Authority, instead of the legal entity sheet and supporting documents, the legal entity number may be provided, unless a change in legal status occurred in the meantime.
5. A financial identification form of the lead applicant (not from co-applicant(s), nor from affiliated entity(ies)) conforming to the model attached at Annex E of these guidelines, certified by the bank to which the payments will be made. This bank should be located in the country where the lead applicant is established. If the lead applicant has already submitted a financial identification form in the past for a contract where the European Commission was in charge of the payments and intends to use the same bank account, a copy of the previous financial identification form may be provided instead.

¹⁹ No supporting document will be requested for applications for a grant not exceeding EUR 60000.

²⁰ Where the lead applicant and/or a co-applicant(s) and or an affiliated entity(ies) is a public body created by a law, a copy of the said law must be provided.

²¹ To be inserted only where the eligibility conditions have not changed from one call for proposals to the other.

The requested supporting documents (uploaded in PADOR or sent together with the PADOR offline form) must be supplied in the form of originals, photocopies or scanned versions (i.e. showing legible stamps, signatures and dates) of the said originals

Where such documents are not in one of the official languages of the European Union or in the language of the country where the action is implemented, a translation into the English of the relevant parts of these documents proving the lead applicant's and, where applicable, co-applicants' and affiliated entity(ies)' eligibility must be attached for the purpose of analysing the application.

Where these documents are in an official language of the European Union other than English, it is **strongly** recommended, in order to facilitate the evaluation, to provide a translation of the relevant parts of the documents, proving the lead applicants' and, where applicable, co-applicants' and affiliated entity(ies)' eligibility, into English.

Applicants have to take into consideration the time necessary to obtain official documents from national competent authorities and to translate such documents in the authorised languages while registering their data in PADOR.

If the abovementioned supporting documents are not provided before the deadline indicated in the request for supporting documents sent to the lead applicant by the Contracting Authority, the application may be rejected.

After verifying the supporting documents, the evaluation committee will make a final recommendation to the Contracting Authority, which will decide on the award of grants.

NB : In the eventuality that the Contracting Authority is not satisfied with the strength, solidity, and guarantee offered by the structural link between one of the applicants and its affiliated entity, it can require the submission of the missing documents allowing for its conversion into co-applicant. If all the missing documents for co-applicants are submitted, and provided all necessary eligibility criteria are fulfilled, the above mentioned entity becomes a co-applicant for all purposes. The lead applicant has to submit the application form revised accordingly.

2.5 NOTIFICATION OF THE CONTRACTING AUTHORITY'S DECISION

2.5.1 *Content of the decision*

The lead applicants will be informed in writing of the Contracting Authority's decision concerning their application and, if rejected, the reasons for the negative decision. This letter will be sent by e-mail and will appear online automatically in the PROSPECT profile of the user who submitted the application. Lead applicants who, in exceptional cases (see section 2.2), had to submit their application by post or hand-delivery will be informed by e-mail or by post if they did not provide any e-mail address. 2.6 CONDITIONS FOR IMPLEMENTATION AFTER THE CONTRACTING AUTHORITY'S DECISION TO AWARD A GRANT

Following the decision to award a grant, the beneficiary(ies) will be offered a contract based on the standard grant contract (see Annex G of these guidelines). By signing the application form (Annexes A.1 and A.2 of these guidelines), the lead applicant agrees, if awarded a grant, to accept the contractual conditions of the standard grant contract. Where the Coordinator is an organisation whose pillars have been positively assessed, it will sign a PA Grant Agreement based on the PAGoDA template.
