1.	<p>The tender <b>SERBIA 139116</b> has been opened and our team had assessed the Tender Notice published online. We might have other questions in the near future but we would like to see with you quite quickly if there is a typo regarding one of the section criteria 21.3.b. In the document it is mentioned that:</p> <p><i>b) The candidate has provided services under at least 1 (one contract) (with portion of the services carried out by the legal entity being at least EUR 50,000) in the field of developing and/or implementation of software for power system analysis.</i></p> <p>It is more expected to get a threshold at 500,000 EUR instead of 50,000 EUR for such a software project. Could you please confirm or infirm?</p>	<p>We confirm that the given threshold is correct (50,000 EUR).</p>
