## 2 THE ACTION<sup>17</sup>

### 2.1. Description of the Action

#### 2.1.1. Description (max 13 pages)

Provide a description of the proposed action, including all the information requested below, referring to the overall objective(s) and specific objective(s), outputs and results described in the concept note:

- Explain the specific results expected, stating how the action will improve the situation of the target groups and final beneficiaries and the technical and management capacities of target groups and/or any local co-applicants and affiliated entity(ies).
- Identify and describe in detail each activity (or work package) to be undertaken to produce results, justifying the choice of activities and specifying the role of each co-applicant(s) and affiliated entity(ies) (and associates or contractors or sub-grantees where applicable) in the activities. Do not repeat the action plan to be provided in Section 2.1.3, but demonstrate coherence and consistency of project design. In particular, list any publications proposed.
- If financial support is allowed by the Guidelines for Applicants, applicants wishing to give financial support to third parties must define, in line with the conditions set by the Guidelines for Applicants the objectives and results to be obtained with financial support, the different types of activities eligible for financial support, on the basis of a fixed list, the types of entity eligible or categories of persons which may receive financial support, the criteria for selecting these entities and giving the financial support, the criteria for determining the exact amount of financial support for each third entity, and the maximum amount which may be given.
- Describe/highlight eventual changes of the information provided in the concept note.

#### 2.1.2. Methodology (max 5 pages)

Describe in detail:

- the methods of implementation and rationale for such methodology;
- where the action continues a previous action, describe how the action is intended to build on the results of the previous action (give the main conclusions and recommendations of any evaluations carried out);
- where the action is part of a larger programme, explain how it fits or is coordinated with this programme or any other possibly planned project (please specify potential synergies with other initiatives, in particular by the European Union);
- the procedures for follow up and internal/external evaluation;
- the role and participation in the action of the various actors and stakeholders (co-applicant(s), affiliated entity(ies), target groups, local authorities, etc.), and the reasons why these roles have been assigned to them;
- the organisational structure and the team proposed for the implementation of the action (by function: there is no need to include the names of individuals);
- the main means proposed for the implementation of the action (equipment, materials, and supplies to be acquired or rented);
- the attitudes of all stakeholders towards the action in general and the activities in particular;

---

<sup>17</sup> The evaluation committee will refer to information provided in the Concept Note as regards objectives and the relevance of the action.

- the planned activities in order to ensure the visibility of the action and the EU funding.

### 2.1.3. Duration and indicative action plan for implementing the action (max 4 pages)

The duration of the action will be **<X> months**.

Applicants should not give a specific start-up date for the implementation of the action but simply refer to 'month 1', 'month 2', etc.

Applicants are recommended to base the estimated duration of each activity and the total period on the most probable duration and not on the shortest possible duration, by taking into consideration all relevant factors that may affect the implementation timetable.

The activities stated in the action plan should match those described in detail in Section 2.1.1. The implementing body must be either the applicants or any of the affiliated entity(ies), associates or subcontractors. Any months or interim periods without activities must be included in the action plan and count toward the calculation of the total estimated duration of the action.

The action plan for the first 12 months of implementation should be sufficiently detailed to give an overview of the preparation and implementation of each activity. The action plan for each of the subsequent years may be more general and should only list the main activities proposed for those years. To this end, it must be divided into six-month periods (NB: A more detailed action plan for each subsequent year must be submitted before any new pre-financing payments are received under Article 4.1 of the Special Conditions of the grant contract).

The action plan will be drawn up using the following format:

Year 1													
	Half-year 1						Half-year 2						
Activity	Month 1	2	3	4	5	6	7	8	9	10	11	12	Implementing body
Example	example												Example
Preparation Activity 1 (title)													co-applicant and/or affiliated entity
Execution Activity 1 (title)													co-applicant and/or affiliated entity
Preparation Activity 2 (title)													co-applicant and/or affiliated entity
Etc.													

For the following years:									
Activity	Half-year 3	4	5	6	7	8	9	10	Implementing body
Example	Example								Example
Execution Activity 1 (title)									co-applicant and/or affiliated entity
Execution Activity 2 (title)									co-applicant and/or affiliated entity

Preparation Activity 3 (title)									co-applicant and/or affiliated entity
Etc.									

#### 2.1.4. Sustainability of the action (max 3 pages)

Provide **all the** information requested below:

- Describe the expected impact of the action with quantified data where possible, at technical, economic, social, and policy levels (will it lead to improved legislation, codes of conduct, methods, etc.?).
- Describe a dissemination plan and the possibilities for replication and extension of the action outcomes (multiplier effects), clearly indicating any intended dissemination channel.
- Provide a detailed risk analysis and contingency plan. This should include a list of risks associated with each proposed action, accompanied by relevant mitigation measures. A good risk analysis will include a range of risk types including physical, environmental, political, economic and social risks.
- Describe the main preconditions and assumptions during and after the implementation phase.
- Explain how the action will be made sustainable after completion. This may include necessary follow-up activities, built-in strategies, ownership, communication plan, etc. Distinguish between four types of sustainability:
  - a. Financial sustainability: e.g. financing of follow-up activities, sources of revenue for covering all future operating and maintenance costs.
  - b. Institutional sustainability: e.g. structures that would allow the results of the action to continue to be in place after the end of the action, capacity building, agreements and local 'ownership' of action outcomes.
  - c. Policy level sustainability: e.g., where applicable, structural impact (improved legislation, consistency with existing frameworks, codes of conduct, or methods).
  - d. Environmental sustainability: what impact will the action have on the environment — have conditions been put in place to avoid negative effects on the natural resources on which the action depends and on the broader natural environment?
