SECTION I INSTRUCTIONS TO TENDERERS

PUBLICATION REF.: EuropeAid/133971/C/WKS/RS

In submitting a tender, the tenderer accepts in full and without restriction the special and general conditions governing the contract as the sole basis of this tendering procedure, whatever its own conditions of sale may be, which it hereby waives. Tenderers are expected to examine carefully and comply with all instructions, forms, contract provisions and specifications contained in this tender dossier. Failure to submit a tender containing all the required information and documentation within the deadline will lead to rejection of the tender. No account can be taken of any reservation in the tender as regards the tender dossier; this may result in immediate rejection of the tender without further evaluation.

These Instructions set out the rules for the submission, selection and implementation of contracts financed under this call for tenders, in conformity with the provisions of the Practical Guide to contract procedures for EU external action, which is applicable to this call (available on the internet at this address:

2. FINANCING

The project is financed by the European Union, in accordance with the rules of IPA programme.

3. PARTICIPATION

3.1 Participation in the call for tender is open to all legal persons participating either individually or in a grouping (consortium) or tenderers established in one of the Member States of the European Union or in a country or territory of the regions covered and/or authorised by the specific instruments applicable to the IPA programme under which the contract is financed. Participation is also open to international organisations. Participation of natural persons is directly governed by the specific instruments applicable to the programme under which the contract is financed.

3.2 These terms refer to all nationals of the above states and to all legal entities, companies or partnerships established in the above states. For the purposes of proving compliance with this rule, tenderers being legal persons, must present the documents required under that country's law. In case of doubt, the Contracting Authority may ask the tenderer to provide evidence demonstrating actual compliance with the "establishment" criteria. For this purpose, legal person will have to demonstrate that their legal person is formed under the law

of an eligible State and that its head office is within an eligible State. "Head office" must be understood as its central administration or principal place of business.

- 3.3 The eligibility requirement detailed in subclauses 3.1 and 3.2 applies to all members of a joint venture/consortium, all subcontractors and all suppliers to tenderers. Every tenderer, member of a joint venture/consortium, every subcontractor providing more than 10% of the works and every supplier providing more than 10% of the works must certify that they meet these conditions. They must prove their eligibility by a document dated less than one year earlier than the deadline for submitting tenders, drawn up in accordance with their national law or practice or by copies of the original documents stating the constitution and/or legal status and the place of registration and/or statutory seat and, if it is different, the place of central administration. The Contracting Authority may accept other satisfactory evidence that these conditions are met.
- 3.4 Natural persons, companies or undertakings falling into a situation set out in section 2.3.3 of the Practical Guide to contract procedures for EU external action are excluded from participation in and the award of contracts. Tenderers must provide declarations to the effect that they are not in any of the exclusion situations listed in section 2.3.3 of the Practical Guide to contract procedures for EU external action. The declarations must cover all the members of a joint venture/consortium. Tenderers guilty of making false declarations may also incur financial penalties and exclusion in accordance with section 2.3.4 of the Practical Guide.
- 3.5 The exclusion situation referred to in subclause 3.4 applies to all members of a joint venture/consortium, all subcontractors and all suppliers to tenderers.
- 3.6 The upper limit authorised for subcontracting is **30%** of the value of the tender.¹

4. ONLY ONE TENDER PER TENDERER

A company may not tender for a given contract both individually and as a member of a joint venture/consortium. Participation by a tenderer in more than one tender for a contract will result in the disqualification of all those tenders for that contract in which the party is involved. The same company may only participate as subcontractor in different tenders if that is justified by the specific nature of the market and cleared by the Contracting Authority.

5. TENDER EXPENSES

- 5.1. The tenderer will bear all costs associated with preparing and submitting the tender. The Contracting Authority will not be responsible or liable for such costs, whatever the conduct or outcome of the procedure.
- 5.2. The Contracting Authority will neither be responsible for, nor cover, any expenses or losses incurred by the tenderer through site visits and inspections or any other aspect of its tender.

¹ If the tender includes subcontracting, it is recommended that the contractual arrangements between the tenderer and its subcontractors include mediation, according to national and international practices, as a method of dispute resolution.

6. SITE INSPECTION

- 6.1. The tenderer is obliged to visit and inspect the site of the works and its surroundings for the purpose of assessing, at its own responsibility, expense and risk, the factors necessary for preparing its tender and signing the contract for the works. [Date, time and place, see point 13 of the contract notice.]
- 6.2. A clarification/information meeting and a site visit will be held by the Contracting Authority [Date, time and place, see point 13 of the contract notice.].
- 6.3. The minutes of the clarification/information meeting and the site visit will be published on the EuropeAid website at:
<http://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome> and on the website of the Delegation of the European Union to the Republic of Serbia www.europa.rs (section Funding Opportunities). As proof of participation the tenderers will receive a certificate of their site visit and clarification/information meeting.

An economic operator may, where appropriate and for a particular contract, rely on the capacity of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may *not* be considered appropriate by the Contracting Authority are when the tenderer relies mostly on the capacity of other entities or when it relies on key criteria. If the tenderer relies on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary to perform

the contract, for example by producing an undertaking on the part of those entities to place resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the tender should include a separate document providing data on this third entity for the relevant selection criterion. Proof of capacity must be furnished at the request of the Contracting Authority.

12.3 Tenders submitted by companies in partnerships forming a joint venture/consortium must also fulfil the following requirements:

- The tender must include all the information required in 12.1 above for each member of the joint venture/consortium and the summary data for execution of works by the tenderer.
- The tender must be signed in a way that legally binds all members. One member must be appointed lead member and that appointment confirmed by submission of powers of attorney signed by legally empowered signatories representing all the individual members. See Form 4.6.5 in Volume 1 and the tender form.
- All members of the joint venture/consortium are bound to remain in the joint venture/consortium for the whole execution period of the contract. See the declaration in the tender form.

13 TENDER PRICES

- 13.1. The currency of the tender is the euro.
- 13.2. The tenderer must provide a Breakdown of the Lump-sum Price in euro. The tender price must cover all works as described in the tender documents. All sums in the Breakdown of the Lump-sum Price, the questionnaire and other documents must also be expressed in this currency, with the exception of originals of bank and annual financial statements.
- 13.3. Tenderers must quote all components of the Breakdown of the Lump-sum Price. No payment will be made for items which have not been costed; such items will be deemed to be covered by other items on the Breakdown of the Lump-sum Price. Prices do not include the taxes and fiscal duties, as exoneration is explicitly given in the contract. The non-exonerated taxes and fiscal duties, apart from those which are stated separately in these financial offer Templates, are covered in the Lump-sum Price of the contract and in the various prices of the Breakdown of the Lump-sum Price and of the Daywork Schedule.
- 13.4. If a discount is offered by the tenderer, it must be clearly specified in the Breakdown of the Lump-sum Price in Volume 4 and indicated in the tender form in Volume 1, Section 1.2. The discount must be quoted for the whole of the works.
- 13.5. If the tenderer offers a discount, the discount must be included on each interim payment certificate and calculated on the same basis as in the tender.

3

14 PERIOD OF VALIDITY OF TENDERS

- 14.1. Tenders must remain valid for a period of 90 days after the deadline for submitting tenders indicated in the contract notice, the invitation to tender or as amended in accordance with Clauses 9 and/or 18.
- 14.2. In exceptional circumstances the Contracting Authority may, before the period expires, request that tenderers extend the validity of tenders for a specific period, which may not exceed 40 days. Such requests and the responses to them must be made in writing. A tenderer may refuse to comply with such a request without forfeiting its tender guarantee. If the tenderer decides to accept the request, it may not amend its tender and it is bound to extend the validity of its tender guarantee for the revised period of validity of the tender.
- 14.3. The successful tenderer must maintain its tender for a further 60 days. This period is in addition to the validity period, irrespective of the date of notification.

15 TENDER GUARANTEE

- 15.1. The tenderer must provide, as a part of its tender, a tender guarantee in the form set out in Volume 1, Section 3 of the tender dossier, or in another form acceptable to the Contracting Authority that meets the essential requirements set out therein. The tender guarantee must be for an amount of EUR 150,000. The original guarantee must be included in the original tender.
- 15.2. It may be provided in the form of a bank guarantee, a banker's draft, a certified cheque, a guarantee provided by an insurance and/or guarantee company or an irrevocable letter of credit made out to the Contracting Authority.

18 EXTENSION OF THE DEADLINE FOR SUBMITTING TENDERS

The Contracting Authority may, on its own discretion, extend the deadline for submitting tenders by issuing an amendmend in accordance with Clause 9. In such cases, all rights and obligations of the Contracting Authority and the tenderer regarding the original date specified in the contract notice will be subject to the new date.

19 LATE TENDERS

- 19.1. All tenders received after the deadline for submission specified in the contract notice or these instructions will be kept by the Contracting Authority. The guarantees will be returned to the tenderers.
- 19.2. No liability can be accepted for late delivery of tenders. Late tenders will be rejected and will not be evaluated.

20 ALTERING AND WITHDRAWING TENDERS

- 20.1. Tenderers may alter or withdraw their tenders by written notification prior to the above deadline. No tender may be altered after the deadline for submission. Withdrawals must be unconditional and will end all participation in the tender procedure.
- 20.2. Any notification of alteration or withdrawal must be prepared and submitted in accordance with Clause 17, and the envelope must be marked "alteration" or "withdrawal", as appropriate.
- 20.3. Withdrawal of a tender in the period between the deadline for submission and the date of expiry of the validity of the tender will result in forfeiture of the tender guarantee.

OPENING AND EVALUATING TENDERS

21 OPENING OF TENDERS

- 21.1 The purpose of opening and examining tenders is to check whether the tenders are complete, whether the requisite tender guarantees have been furnished, whether the required documents are included and whether the tenders are generally in order.
- 21.2 Tenders will be opened in public session on the date and venue specified in point 20 of the Contract Notice by the committee appointed for that purpose. The committee will draw up minutes of the meeting, which must be available to tenderers on request.
- 21.3 At the tender opening session, the tenderers' names, the tender prices, any discounts offered, written notifications of alteration and withdrawal, the presence of the tender guarantee (if required) and such other information the Contracting Authority may consider appropriate may be announced.
- 21.4 After the public opening of the tenders, no information relating to the examination, clarification, evaluation or comparison of tenders or recommendations concerning the award of contract can be disclosed until after the contract has been awarded.

Any attempt by a tenderer to influence the evaluation committee in the process of examination, clarification, evaluation and comparison of tenders, to obtain information on how the procedure is progressing or to influence the Contracting Authority in its decision concerning the award of the contract will result in the immediate rejection of its tender.

22 EVALUATING TENDERS

The Contracting Authority reserves the right to ask a tenderer to clarify any part of its tender that the evaluation committee considers necessary to evaluate it. Such requests and the responses to them must be made in writing. They may in no circumstances alter or try to change the price or content of the tender, except to correct arithmetical errors discovered by the evaluation committee when analysing tenders.

The Contracting Authority reserves the right to check information submitted by the tenderer if the evaluation committee considers it necessary.

22.1. Examination of the administrative compliance of tenders

The aim at this stage is to check that tenders comply with the requirements of the tender dossier. A tender is deemed to comply if it satisfies all the conditions, procedures and

specifications in the tender dossier without substantially departing from or attaching restrictions to them.

Substantial departures or restrictions are those which affect the scope, quality or execution of the contract, differ widely from the terms of the tender dossier, limit the rights of the Contracting Authority or the tenderer's obligations under the contract or distort competition for tenderers whose tenders do comply. Decisions to the effect that a tender is not administratively compliant must be duly justified in the evaluation minutes.

The evaluation committee will check that each tender:

- has been properly signed;
- includes a correct tender guarantee (if required);
- meets the requirements as set out in the administrative compliance grid;
- has complete documentation and information;
- substantially complies with the requirements of these tender documents.

If a tender does not meet the requirements set out in the administrative compliance grid, it may be rejected by the evaluation committee when checking admissibility.

22.2 Technical evaluation

The evaluation committee must evaluate only those tenders considered substantially compliant in accordance with Clause 22.1.

The purpose of the evaluation process is to identify the tenderer which for the lowest cost is most likely to enable the Contracting Authority to achieve its objectives of having a facility that is completed on time, meets the published criteria and is within the budget available. The evaluation of tenders may take into account not only the construction costs but, if necessary, the operating costs and resources required (ease of operation and maintenance), in line with the technical specifications. The Contracting Authority will examine in detail all the information supplied by the tenderers and will formulate its judgement on the basis of the lowest total cost, including additional costs.

At this step of the evaluation procedure the committee will analyse the tenders' technical conformity in relation to the technical specifications, classifying them technically compliant or non-compliant.

22.3 Financial evaluation

Once the technical evaluation has been completed the evaluation committee checks that the financial offers contain no arithmetical errors. If the tender procedure contains several lots, financial offers are compared for each lot. The financial evaluation will have to identify the best financial offer for each lot, taking due account of any discounts offered.

When analysing the tender, the evaluation committee will calculate the final tender price after adjusting it on the basis of Clause 23.

23 CORRECTING ERRORS

23.1. Possible errors in the financial offer will be corrected by the evaluation committee as follows:

- where there is a discrepancy between amounts in figures and in words, the amount in words will prevail;

- except for lump-sum contracts, where there is a discrepancy between a unit price and the total amount derived from the multiplication of the unit price and the quantity, the unit price as quoted will prevail.

23.2. The amount stated in the tender will be adjusted by the evaluation committee in the event of error, and the tenderer will be bound by that adjusted amount. If the tenderer does not accept the adjustment, its tender will be rejected and its tender guarantee forfeited.

CONTRACT AWARD

24 AWARD CRITERIA

The sole award criterion will be the price. The contract will be awarded to the lowest compliant tender.

25 NOTIFICATION OF AWARD, CONTRACT CLARIFICATIONS

Prior to the expiry of the validity period of tenders, the Contracting Authority will notify the successful tenderer, in writing, that its tender has been selected and draw its attention to any arithmetical errors corrected during the evaluation process. This notification may take the form of an invitation to clarify certain contractual questions raised therein, to which the tenderer must be prepared to reply. This clarification will be confined to issues that had no direct bearing on the choice of the successful tender. The outcome of such clarification will be set out in a memorandum of clarification, to be signed by both parties and incorporated into the contract.

Before the Contracting Authority signs the contract with the successful tenderer, the successful tenderer must provide the **documentary proof** or statements required under the law of the country in which the company (or, for consortia, each of the companies) is established, to show that it does not fall into any of the exclusion situations listed in section 2.3.3 of the Practical Guide to contract procedures for EU external action. This evidence, documents or statements must carry a date, which cannot be more than one year before the date of submission of the tender. In addition, a statement must be furnished stating that the situations described in these documents have not changed since then. The above-mentioned documents must be submitted for the tenderer, every member of a joint venture/consortium, all subcontractors providing more than 10% of the works and every supplier providing more than 10% of the works. For any other subcontractor or supplier, the successful tenderer must submit a declaration from the intended subcontractor or supplier that it is not in one of the exclusion situations. In the event of doubt on this declaration of honour, the Contracting Authority must request documentary evidence that they are not in a situation of exclusion.

Evidence of financial, economic, technical and professional capacity according to the selection criteria specified in subsection 12.2 above will be requested unless satisfactory documents are already included in the tender.

If the successful tenderer fails to provide this documentary proof or statement within 15 calendar days following notification of award or if the successful tenderer is found to have provided false information, the award will be considered null and void. In this case, the Contracting Authority may award the tender to the next lowest tenderer or cancel the tender procedure.

After the contract has been signed and the successful tenderer has provided the performance guarantee, in accordance with Clause 26, the Contracting Authority will promptly notify the other tenderers that their tenders have not been successful and release their tender guarantees.

26 CONTRACT SIGNING AND PERFORMANCE GUARANTEE

- 26.1. Within 30 days of receipt of the contract already signed by the Contracting Authority, the selected tenderer must sign and date the contract and return it, with the performance guarantee (if applicable) to the Contracting Authority. On signing the contract, the successful tenderer will become the Contractor and the contract will enter into force.
- 26.2. If it fails to sign and return the contract and any financial guarantee required within 30 days after receipt of notification, the Contracting Authority may consider the acceptance of the tender to be cancelled, without prejudice to the Contracting Authority's right to invoke the guarantee, claim compensation or pursue any other remedy in respect of such failure, and the successful tenderer will have no claim whatsoever on the Contracting Authority.
- 26.3. The performance guarantee referred to in the General Conditions is set at 10% of the amount of the contract and must be presented in the form specified in the annex to the tender dossier. It will be released in accordance with the Special Conditions.

27 CANCELLATION OF THE TENDER PROCEDURE

In the event of cancellation of a tender procedure, tenderers will be notified by the Contracting Authority. If the tender procedure is cancelled before the tender opening session, the sealed envelopes will be returned, unopened, to the tenderers.

Cancellation may occur where:

- the tender procedure has been unsuccessful, namely where no qualitatively or financially worthwhile tender has been received or there has been no valid response at all;
- the economic or technical parameters of the project have been fundamentally altered;
- exceptional circumstances or force majeure render normal execution of the project impossible;
- all technically compliant tenders exceed the financial resources available;
- there have been irregularities in the procedure, in particular where these have prevented fair competition;
- the award is not in compliance with sound financial management, i.e. does not respect the principles of economy, efficiency and effectiveness (e.g. the price proposed by the tenderer to whom the contract is to be awarded is objectively disproportionate with regard to the price of the market.

In no event will the Contracting Authority be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a tender procedure, even if the Contracting Authority has been informed of the possibility of damage. Publication of a contract notice does not commit the Contracting Authority to implement the programme or project announced.

28 ETHICS CLAUSES

- 28.1. Any attempt by a candidate or tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the committee or the Contracting Authority during the process of examining, clarifying, evaluating and comparing tenders will lead to the rejection of its candidacy or tender and may result in administrative penalties.
- 28.2. Without the Contracting Authority's prior written authorisation, the Contractor and its staff or any other company with which the Contractor is associated or linked may not, even on an ancillary or subcontracting basis, supply other services, carry out works or supply equipment

B

for the project. This also applies to any other programmes or projects that could, owing to the nature of the contract, give rise to a conflict of interest on the part of the Contractor.

- 28.3. When putting forward a candidacy or tender, the candidate or tenderer must declare that it is not affected by any conflict of interest, and that it has no equivalent relation in that respect with other tenderers or parties involved in the project. Should such a situation arise during execution of the contract, the Contractor must immediately inform the Contracting Authority.
- 28.4. The Contractor must at all times act impartially and as a faithful adviser in accordance with the code of conduct of its profession. It must refrain from making public statements about the project or services without the Contracting Authority's prior approval. It may not commit the Contracting Authority in any way without its prior written consent.
- 28.5. For the duration of the contract, the Contractor and its staff must respect human rights and undertake not to offend the political, cultural and religious mores of the beneficiary state.
- 28.6. The Contractor may accept no payment connected with the contract other than that provided for therein. The Contractor and its staff must not exercise any activity or receive any advantage inconsistent with their obligations to the Contracting Authority.
- 28.7. The Contractor and its staff are obliged to maintain professional secrecy for the entire duration of the contract and after its completion. All reports and documents drawn up or received by the Contractor are confidential.
- 28.8. The contract governs the Parties' use of all reports and documents drawn up, received or presented by them during execution of the contract.
- 28.9. The Contractor must refrain from any relationship likely to compromise its independence or that of its staff. If the Contractor ceases to be independent, the Contracting Authority may, regardless of injury, terminate the contract without further notice and without the Contractor having any claim to compensation.
- 28.10. The Commission reserves the right to suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process and if the Contracting Authority fails to take all appropriate measures to remedy the situation. For the purposes of this provision, "corrupt practices" are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or implementation of a contract already concluded with the Contracting Authority.
- 28.11. All tenders will be rejected or contracts terminated if it emerges that the award or execution of a contract has given rise to unusual commercial expenses. Unusual commercial expenses are commissions not mentioned in the main contract or not stemming from a properly concluded contract referring to the main contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a recipient who is not clearly identified or commissions paid to a company which has every appearance of being a front company.
- 28.12. The Contractor undertakes to supply the Commission on request with all supporting documents relating to the conditions of the contract's execution. The Commission may carry out whatever documentary or on-the-spot checks it deems necessary to find evidence in cases of suspected unusual commercial expenses.

28.13. Contractors found to have paid unusual commercial expenses on projects funded by the European Union are liable, depending on the seriousness of the facts observed, to have their contracts terminated or to be permanently excluded from receiving EU funds.

28.14 The Contracting Authority reserves the right to suspend or cancel the procedure, where the award procedure proves to have been subject to substantial errors, irregularities or fraud. Where such substantial errors, irregularities or fraud are discovered after the award of the Contract, the Contracting Authority may refrain from concluding the Contract.

29 APPEALS

Tenderers believing that they have been harmed by an error or irregularity during the award process may file a complaint. See section 2.4.15 of the Practical Guide to contract procedures for EU external action.
